Good Morning s47F

As I'm sure you are aware, the Australian Government has pushed through new firearms legislation, and as part of that changes they've cancelled all existing B709 import permits. This includes the Glock pistols on PO 3000280173.

The order was due to be shipped out on the 20/01, however, all current Glock firearm shipments are being held at Glock until new permits have been approved. NIOA is currently pushing to have these new permits finalised asap, however the Attorney General's Dept and QPS's turnaround times are as of this moment unclear.

We're tracking the situation daily and will update you as information comes in.

Apologies for any inconvenience this may cause, and if you have any questions, please let me know.

Regards,

s47F

Hi s47F

No additional guidance. However, the attached email received yesterday, covers the correspondence between DHA and L300 regarding an application for import of s47E(d) 9 Pistols (including magazines). This is the same process we have used in the past although it could well be a 'sliding doors' moment given that the process would have been in train before the firearms legislation was conceived.

I will keep you appraised of any developments that are brought to my attention.

Good Morning Sir

The Australian Government has pushed through new firearms legislation, and as part of the changes they've cancelled all existing B709 import permits. The Attorney General's Dept and QPS's turnaround times are as of this moment unclear.

Currently for CA08 this includes the
Future orders

- Glock 19 Gen 5 order

s22

Points to note

- The AG's Dept requires the serial numbers up front
- The OEM usually sends extra wpns in case wpns fail Quality Assurance (QA) checks and are then returned back to the OEM
- NIOA conduct the QA's

This creates administration burden and delay to delivery times.

When I get more info, I will let you know.

Cheers

Hi s47F
Just to follow up on our phone conversation and after discussing with our Trade Compliance team it will be early next week before "NIOA" will be able to send a formal letter as the situation is still a little fluid. NIOA is involved with an industry working group being run by HA to discuss the effects of the change in the Customs (Prohibited Imports) Regulations made earlier this month.
Border Force did release the attached notice, and we are still working through the implications for all of our orders across the business.
Will follow up on this subject early next week.

Good morning s47F

I hope your start to the year has not been as hectic as ours. With the legislative changes to firearms import permits we have had to review all current orders and do some quick work to apply for new permits. The changes have mostly affected our Sporting Firearms side with the impact on our Defence/Law Enforcement in much less.

The attached letter outlines this impact specific to LSASPO.

Please give me a call should you need further information.

Dear s47F

RE: CHANGES TO IMPORT PERMIT PROCEDURES

Recent changes to Federal Firearms Legislation (Customs (Prohibited Imports) Regulations 1956) after the December Bondi Incident have caused some disruption to NIOA's importation of firearms and parts for Defence.

Import permits from the Department of Home Affairs (HA) are now required for all Category H firearms and firearm parts (barrels, frames, trigger mechanisms, & slides). The permit applications require the serial numbers be provided for each firearm before the permit application is processed. Permit application processing time is around 6 to 8 weeks. Suppliers will require a valid permit prior to dispatching orders.

Previously we were able to import the majority of Category H firearms and parts under a blanket B709DA Police Certification Permit in unlimited quantities. As individual serial numbers were not required on the permit the shipments could be dispatched with no delay.

Some current orders have been affected; however, we have already applied to HA for the required permits and have been assured all Defence and Law Enforcement related permits will be given priority. The current orders for additional SIG Sauer pistols (F9s) remain unaffected as due to quantities they were already on a HA permit. Essentially, the HA permit process timeline will a the bottleneck for a time due to implementation of the changes.

Overall, there is minimal disruption to current orders, planning timelines for future orders are yet unknown. NIOA continues to actively work as Defence's Industry Partner and are representing your interests in the working groups with the Attorney General's office on permitting matters.

Please let me know you or your team require any further details, we'll continue provide updates as we get more information.

Yours sincerely,

s47F

Good Morning

I am hoping that you are able to assist me. The Department of Defence has two permit applications with home affairs:

- 228 x G19 Permit # 021IP/2026 submitted 30 Jan 26
s22

We understand the new gun laws that are in place and there are delays. Our orders was shipped out with an order for NSW police, and they have had their handguns released. I am just after a timeline when the Department of Defence's orders will be cleared as this has impacts on our capabilities.

Any assistance or guidance is appreciated.

Cheers

OFFICIAL

Hi s47F

Please find below the timeline of events for the Glock 19 Pistol order from NIOA:

- **17 Oct 25** – Purchase Order (PO 3000280173) raised with a delivery date of 20 Mar 26.
- **20 Jan 26** – Glock was due to commence shipping 228 Glock 19 Gen 5 pistols to Australia, however, exiting B709 import permits cancelled by AGs office.
- **30 Jan 26** – CA08 received an e-mail from NIOA advising of an issue with the import permit and the requirement for resubmission of new permits (021IP/2026) via a new process.
- **6 Feb 26** – Letter (NIOA2026-0003) sent to Dir LSASPO from NIOA formally raising concerns about possible delays to deliveries due to new import permit procedures.
- **02 Mar 26** – NIOA requested an extension from CA08 for the PO 3000280173 to 29 May 26 as they had not received confirmation of the new permit (021IP/2026) from the AGs Office.
- **26 Mar 26** – Follow up e-mail from s47F to NIOA requesting a status update on permit approvals.
- **01 May 26** – SG001 signed by s47F

Based on the initial delivery date the delay would have been approximately 4-6 weeks. An extension was requested and granted without impact to capability and prior to meeting the original delivery date. The completed delivery arrived inside of the revised delivery date.

Subject: FW: TASK DUE (1600) THURS 18 JUNE 2026 : 2026-27 Budget Estimates – Q74 - Firearm Law - January 2026 Changes Question on Notice (2606-282) [SEC=OFFICIAL]

OFFICIAL

s47F

As briefly mentioned this morning, we have now received the QON with a due date to DEPSEC of 19 June. You will need to clear it as A/HLS. The QON is:

1. Did Defence experience any delays/obstacles to their receipt of firearms or other material as a consequence of these laws being passed?
2. If YES, identify the date the issue was identified, the materiel involved and the date the issue was resolved.

LSASPO s47F is investigating. The attached letter from NIOA indicates that "**Some current orders have been affected** …" and are being managed by the supplier. It appears that if there has been a delay to receipt of any firearms as a consequence of the changes to the laws, there has not been an impact to capability.

Hi s47F
We are tracking this delay, NSW Police Pistols that arrived in Australia in the same consignment have cleared customs, however, Defence are still awaiting clearance for our Pistols.
CA08 have contacted Border Force / Home Affairs enquiring why Defence Pistols have not been cleared at the same time as NSW Police Pistols.
As soon as we have a response I will provide an update.
Regards,
s47F

Hi s47F

Can you confirm that none of these applications have been approved by Home Affairs?

Are you able to give a broader view on the effects of the law changes and the delays you have experienced? I believe you mentioned delays of 4 to 6 months when we met. NIOA's commercial division experiences may also be applicable in your response. This information will be useful if Defence is to engage with Home affairs on this issue, but will also allow L300/Fleet to manage the risks around current and future procurements.

Gentlemen,
Thanks for your time on Tuesday, to follow up on the point I raised with regard to the new requirement from 19th of Jan for individual permits for Pistols or pistol parts from Home Affairs.
Three current Defence are affected. Two earlier ones that I mentioned and a more recent application.
LSASPO, sustainment buy of Glock G19 (qty 228), your PO 3000280173.
Permit number: 021IP/2026
Application date: 30 Jan 2026
s22

Our Trade compliance team will submit an inquiry for the Glock G19 permit tomorrow as that is now eight weeks since submission.
s22

Please let know if you require any more detail.
Regard s47F
