MRC PUBLIC AIC PLAN

EXECUTIVE SUMMARY:

Daronmont Technologies (Daronmont) has been selected to provide support to the Commonwealth for aspects of the Air Battlespace Management Systems (ABMS) Capability. The MRC program is an element of the ABM Enterprise Capability managed by the Commonwealth.

The value of Contract No. CASG/HSD/CON 14014/1 is $235M (ex GST). The value of the Australian Industry Capability (AIC) is estimated to be $204M (ex GST), thus AIC percentage is 87%.

SCOPE OF FUTURE WORK OPPORTUNITIES:

The MRC supply chain is mature and opportunities for additional Australian industry are limited. Where opportunities for Australian industry to bid on work packages may arise, either directly or indirectly relating to the delivery of services, these packages of work will be opened for quotation.

Daronmont will test the market throughout the life of the Contract to identify gaps and opportunities for Australian industry to provide value added products and services. Daronmont will work with the Commonwealth to monitor local industry and program requirements for opportunities for Australian capability.

FUTURE OPPORTUNITIES INDUSTRY ENGAGEMENT:

In general, Daronmont's process to identify requirements and select vendors is summarised as follows:

1. A requirement is identified
2. The requirement is defined
3. Industry is canvassed for possible providers using standard corporate contracting methods and Industry network searches within Australia.

Daronmont will work in partnership with relevant organisations to identify candidate capability to support the MRC Program in a combination of the following methods:

1. Daronmont's Programs – Examination of existing Daronmont programs to identify relevant capability
2. Government Federal and State – Briefings to industry utilising the Centre for Defence Industry Capability and State Governments' Defence and Industry teams
3. Australian Industry Defence Network , Supply Nation, Defence Teaming Centre and ICN Gateway - to identify candidates using for referral to Daronmont's subcontracts team
4. Australian providers - Direct contact from experts in relevant domains.

Australian industry may register their interest in future opportunities by contacting the following representative, who will coordinate with companies to identify the most appropriate contact:
