V

VCDF Vice Chief of the Defence Force

GLOSSARY

Accumulated Depreciation	The aggregate depreciation recorded for a particular depreciating asset.
Additional Estimates	Where amounts appropriated at Budget time are required to change, Parliament may make adjustments to portfolios through the Additional Estimates Acts.
Administered appropriation	Revenue, expenses, assets and liabilities administered by an agency for the Commonwealth (such as taxes, benefits payments and public debt) that are not concerned with running the agency or its commercial activities.
Administered items	Expenses, revenue, assets or liabilities managed by agencies on behalf of the Commonwealth. Agencies do not control administered items. Administered expenses include grants, subsidies and benefits. In many cases, administered expenses fund the delivery of third party outputs.
Agency	Assets, liabilities, revenue and expenses that are controlled by Defence or a subsidiary. Includes officials allocated to the organisation.
Amortisation	A term used interchangeably with depreciation, except that it applies to a non-current physical asset under finance lease, or a non-current intangible asset, over its limited useful life.
Appropriation	An authorisation by Parliament to spend money from the Consolidated Revenue Fund (the principal working fund of the Commonwealth) for a particular purpose.
Annual appropriation	Two appropriation Bills are introduced into Parliament in May and comprise the Budget for the financial year beginning 1 July. Further Bills are introduced later in the financial year as part of the additional estimates.
Assets	Future economic benefits controlled by Defence as a result of past transactions or other past events. Assets are initially recognised at the cost of acquisition. Non-financial assets are subject to ongoing revaluation assessment.
Assets under construction	Assets under construction by Defence for Defence, or for the use of another entity according to a construction contract where Defence controls the asset until completion, or assets under construction or otherwise being made ready by another entity for use by Defence.
Australian Accounting Standards	Specify techniques of accounting practice and the method of presenting financial information about a reporting entity.
Average funded strength	A budgetary measure used to count the average number of ADF members paid on a full-time equivalent basis during a financial year.
Capability	The combination of military equipment, personnel, logistics support, training, resources, etc. that provides Defence with the ability to achieve its operational aims.
Capability Manager	A Capability Manager is responsible for raising, training and sustaining in-service capabilities through the coordination of fundamental inputs to capability. Capability Managers include the Service Chiefs, the Chief of Joint Operations and the Chief Information Officer.
Capital budget	All proposed capital expenditure funded by appropriation for outcomes, by equity injections or loans and/or appropriations for administered capital, or by other sources.
Capital expenditure	Expenditure by an agency on capital projects, for example purchasing a building.
Coalition	Countries including Australia who provide troops, logistical support or assistance in Military Operations, peacekeeping or reconstruction efforts.

Combined exercise	An exercise or activity involving one or more Services of the ADF with the forces of other countries.
Contractors	Individuals with specialist skills contracted to fill a line position.
Consolidated Revenue Fund	Section 81 of the Constitution stipulates that all revenue raised or money received by the Commonwealth forms the one consolidated revenue fund. The fund is not a bank account. The Official Public Account reflects most of the operations of the fund.
Corporate governance	The process by which agencies are directed and controlled. It is generally understood to encompass authority, accountability, stewardship, leadership, direction and control.
Defence Capability Plan	The Defence Capability Plan is a costed, detailed development plan for Australia's military capabilities over a ten-year period. The plan is reviewed regularly to take account of changing strategic circumstances, new technologies and changed priorities, in the context of the overall Defence budget.
Defence Information Environment	Encompasses all of Defence's computing and communication capabilities at all classification levels. It supports all Defence warfighting functions, including overseas deployed elements and connection to Coalition networks, as well as the day-to-day management functions.
Defence Management Review	A review commissioned in August 2006 by the Minister for Defence in consultation with the Secretary and the Chief of the Defence Force to examine organisational efficiency and effectiveness across the Defence organisation.
Defence Procurement Review	An independent review initiated by the Government in December 2002 to examine the procurement process for major acquisitions in Defence. The review was led by Mr Malcolm Kinnaird and is also known as the Kinnaird Review.
Departmental items	Assets, liabilities, revenue and expenses that are controlled by the agency in providing its outputs. Departmental items would generally include computers, plant and equipment assets used by agencies in providing goods and services and most employee expenses, supplier costs and other administrative expenses incurred.
Depreciation	Apportionment of an asset's capital value as an expense over its estimated useful life to take account of normal usage, obsolescence, or the passage of time.
Employee	Any Australian Public Service officer of Defence or serving Defence Force member who receives a salary or wage, along with other benefits, for the provision of services whether on a full-time, part-time, permanent, casual or temporary basis.
Employee expenses	Include, but are not limited to, benefits provided to employees in the form of salaries and wages, performance pay, senior officers' allowances, leave, and superannuation, but does not include amounts paid or owed to employees as reimbursement of out-of-pocket expenses.
Equity injection	An additional contribution, over and above the cost of outputs. Equity injections form part of the Commonwealth's investment in Defence.
Expense	Total value of all of the resources consumed in producing goods and services or the loss of future economic benefits in the form of reductions in assets or increases in liabilities of an entity.
Fair value	The amount for which an asset could be exchanged, or a liability settled, between knowledgeable and willing parties in an arm's length transaction. The fair value can be affected by the conditions of the sale, market conditions and the intentions of the asset holder.
Financial Management and Accountability Act 1997	The <i>Financial Management and Accountability Act 1997</i> establishes the regulatory framework for financial management within Defence and other public sector agencies.

Force element	A component of a unit, a unit or an association of units having common prime objectives and activities.
Force element group	A grouping of force elements with an appropriate command and control structure for a specified role or roles (e.g. the Navy Submarine Group).
Forward estimates	The level of proposed expenditure for future years, based on relevant demographic, economic and other future forecasting assumptions. The Government requires forward estimates for the following three financial years to be published in each annual Federal Budget paper.
Garrison support services	Includes a range of base support services such as ground maintenance, hospitality, training area management, base security, transport, air support and fire fighting and rescue services.
Group	A high-level organisational grouping of functions and activities used by the Defence Executive as its primary management grouping (eg the Capability Development Group).
Hardened and Networked Army	The Army's key initiative to modernise and meet future operations demands and requirements of the Government. It will increase the size and firepower of the land force, improve the protection provided to troops, and allow them to communicate better on the future battlefield.
Infrastructure	Items owned, leased or otherwise under the control of Defence in support of activities on land and within buildings. Infrastructure includes items such as runways, roads, car parks, parade grounds, ovals, lighting, water, sewerage and other general service related items. It does not include land upon which, or within which, it is constructed or those fixed items integral to, and under, buildings.
Interoperability	The ability of systems, units or forces to provide the services to, and accept services from, other systems, units or forces and to use the services so exchanged to enable them to operate effectively together.
Inventory	Inventory is comprised of consumable stores and supplies, fuel and explosive ordnance used in the delivery of Defence services. These are items which are consumed in normal use, lose their identity during periods of use by incorporation into, or attachment upon, another assembly, as a result of wear and tear, cannot be reconditioned because their design does not make it possible or their specific values do not justify it.
Joint exercise	An exercise involving two or more Services of the ADF.
Liabilities	Sacrifices of future economic benefits that Defence is presently obliged to make to other entities as a result of past transactions or other past events.
Materiel Acquisition Agreements	Materiel Acquisition Agreements cover the Defence Materiel Organisation's acquisition services to Defence for both major and minor capital equipment.
Materiel Sustainment Agreements	Materiel Sustainment Agreements are between the Capability Managers and the Chief Executive Officer of the Defence Materiel Organisation. These agreements cover the sustainment of current capability, including services such as repairs, maintenance, fuel and explosive ordnance.
Military response options	A set of generic tasks that describe the range of military options the Government could consider as a basis for a response to a particular situation or contingency.
Network Centric Warfare	The aim of Network Centric Warfare is to improve the ability of the ADF to collaborate internally with supporting agencies and with coalition partners across organisation and geographic boundaries. Network Centric Warfare would allow Defence to harness recent development in computing and communications technologies to enhance decision making and war fighting capability.

Operating result	Equals revenue less expense.
Operational tempo	The rate at which the ADF is able to deliver its operations effects, for example, the rate at which forces are dispatched and the time in which they are turned around for their next task. At the local level, this might translate to the crew of an aircraft spending a very small amount of time on the ground before it is re-tasked for its next mission. At the organisational level, this translates to available fighting forces spending very little time at home before they are deployed again for their next operation.
Outcomes	The results that the Government seeks from Defence, and are achieved by the successful delivery of its outputs, to the standards set in the <i>Portfolio Budget Statements 2009-10</i> .
Output	The product or service produced by Defence on behalf of government for external organisations or individuals.
Output groups	A logical aggregation of agency outputs, where useful, and based either on homogeneity, type of product, business line or beneficiary target group. Aggregation of outputs may also be needed for the provision of adequate information for performance monitoring, or based on a materiality test.
Permanent forces	The permanent Navy, the regular Army and the permanent Air Force.
Platforms	Refers to air, land, surface or sub-surface assets that are discrete and taskable elements within the ADF.
Portfolio Additional Estimates Statements	Similar to the <i>Portfolio Budget Statements</i> and prepared at Additional Estimates time to support and update on the Government's original annual budget for Defence.
Portfolio Budget Statements	The document presented by the Minister for Defence to Parliament to inform Senators and Members of the basis for the Defence budget appropriations in support of the provisions in Appropriations Bills 1 and 2. The statements summarise the Defence budget and provides detail of outcome performance forecasts and resources in order to justify expenditure for Defence.
Prescribed agency	An agency established by regulation under the <i>Financial Management and Accountability Act 1997</i> . The Act provides financial management authority to, and requires accountability by the Chief Executive of an agency.
Price	One of the three key efficiency indicators. The amount the government or the community pays for the delivery of agreed outputs.
Professional Service Providers	See contractors.
Purchaser-provider arrangements	Arrangements under which the outputs of one agency are purchased by another agency to contribute to outcomes. Purchaser-provider arrangements can occur between Commonwealth agencies and state/territory government or private sector bodies.
Quality	One of the three key efficiency indicators. Relates to the characteristics by which customers or stakeholders judge an organisation, product or service. Assessment of quality involves use of information gathered from interested parties to identify differences between user's expectations and experiences.
Quantity	One of the three key efficiency indicators. Examples include: the size of an output; count or volume measures; how many or how much.
Readiness	The readiness of forces to be committed to operations within a specified time, dependent on the availability and proficiency of personnel, equipment, facilities and consumables.
Reserves	The Naval Reserve, the Army Reserve and the Air Force Reserve.

Revenue	Inflows or other enhancements, or savings in outflows, of future economic benefits in the form of increases in assets or reductions in liabilities of Defence, other than those relating to contributions by the Commonwealth, that result in an increase in equity during the reporting period.
Risk management	At the highest level, involves the identification and mitigation of those risks that have the potential to adversely affect the achievement of agreed output performance at the agreed output price.
Special account	Balances existing within the Consolidated Revenue Fund, that are supported by standing appropriations (<i>Financial Management and Accountability Act 1997</i> , Sections 20 and 21). Special accounts allow money in the Consolidated Revenue Fund to be acknowledged as set-aside (hypothecated) for a particular purpose. Amounts credited to a Special Account may only be spent for the purposes of the Special Account. Special Accounts can only be established by a written determination of the Finance Minister (Section 20 of the <i>Financial Management and Accountability Act 1997</i>) or through an Act of Parliament (referred to in Section 21 of the <i>Financial Management and Accountability Act 1997</i>).
Special Appropriations (including Standing Appropriations)	An amount of money appropriated by a particular Act of Parliament for a specific purpose and number of years. For special appropriations the authority to withdraw funds from the Consolidated Revenue Fund does not generally cease at the end of the financial year. Standing appropriations are a sub category consisting of ongoing special appropriations—the amount appropriated will depend on circumstances specified in the legislation.
Specialist military equipment	Items of a specific military nature and that are not available though the normal external market in their current form to other than government military purchasers. It includes the prime military equipment plus the direct support items associated with the equipment.
Standard Defence Supply System (SDSS)	A key information system for the financial management of inventory, general stores, repairable items and other assets associated with Defence's logistic capability.
System Program Office	The office of the program manager and some of his or her key team members. It serves as the single point of contact with industry, government agencies, and other activities participating in the acquisition process of a given system.
Theatre	The area in which military operations and activities take place.
Two-pass approval process	The process by which major capital investment proposals are developed for consideration and approval by the Government.
Weighted average cost	An inventory valuation method which considers the fluctuating prices and quantities of acquired goods in computing of the cost of inventory. The weighted average method takes the prices of units at the beginning inventory and the varying prices of purchases made and are weighted by the number of units to determine the weighted average cost per unit. It may be computed as the weighted average cost of all available goods present in a given period, or as a weighted moving average cost adjusted when new goods are delivered.
Write-downs	The reduction in the value of assets.

COMPLIANCE INDEX

This index is prepared from the checklist of annual report requirements contained in Attachment F of the *Requirements for Annual Reports* approved by the Joint Committee of Public Accounts and Audit on 8 July 2011.

Description	Page
Letter of transmittal	i

Review by Secretary	
Review by the Secretary and the Chief of the Defence Force	2-3
Summary of significant issues and developments	2-12
Overview of the departments performance and financial results	26-40
Outlook for following year	12
Significant issues and developments—portfolio	2-12
Departmental Overview	
Role and functions	52
Organisational structure	56-57
Outcome and program structure	61
Where outcome and program structures differ from the <i>Portfolio Budget Statements 2009-10</i> and <i>Portfolio Additional Estimates Statements 2009-10</i> or other portfolio statements accompanying any other additional appropriation bills (other portfolio statements) details of variation and reasons for change	68-179
Portfolio structure	54-55
Report on Performance	
Review of performance during the year in relation to programs and contribution to outcomes	68-179
Actual performance in relation to deliverables and KPIs set out in the <i>Portfolio Budget Statements 2009-10</i> and <i>Portfolio Additional Estimates Statements 2009</i> , or other portfolio statements	68-179
Where performance targets differ from the <i>Portfolio Budget Statements 2009-10</i> and the <i>Portfolio Additional Estimates Statements 2009-10</i> , details of both former and new targets and reasons for the change	68-179
Narrative discussion and analysis of performance	68-179
Trend information	68-179
Performance of purchaser/provider arrangements	350
Significant changes in nature of principal functions/services	2-12
Factors events or trends influencing departmental performance	2-12
Contribution of risk management in achieving objectives	2-12 and 193
Social inclusion Outcomes	255-257

Description	Page
Performance against service charter, customer service standards, complaints data and response to complaints	263
Discussion and analysis of financial performance	26-40
Discussion of any significant changes from the prior year or from budget	26-40
Agency resource statement and summary resource tables by outcomes	26-29, 62-64, 69-71, 158-159
Developments since the end of the financial year that have affected or may significantly affect operations or financial results in future	2-12
Management Accountability	
Corporate Governance	
Agency heads are required to certify that their agency comply with the Commonwealth Fraud Control Guidelines	i
Statement of the main corporate governance practices in place	184
Names of the senior executive and their responsibilities	57-60
Senior management committees and their roles	186-188
Corporate and operational planning and associated performance reporting and review	52
Approach adopted to identifying areas of significant financial or operational risk	193
Policy and practices on the establishment and maintenance of appropriate ethical standards	192-193
How nature and amount of remuneration for Senior Executive Service officers is determined	253
External Scrutiny	
Significant developments in external scrutiny	204-207
Judicial decisions and decisions of administrative tribunals	208-209
Reports by the Auditor-General a Parliamentary Committee or the Commonwealth Ombudsman	210
Management of Human Resources	
Assessment of effectiveness in managing and developing human resources to achieve departmental objectives	139-144, 250-251
Workforce planning, staff turnover, and retention	42-49
Impact and features of enterprise or collective agreements determinations common law contracts and AWAs	251-252
Training and development undertaken and its impact	196, 250, 254
Occupational health and safety performance	258-262
Productivity gains	250
Statistics on staffing	269-294
Enterprise or collective agreements determinations common law contracts and AWAs	251-253
Performance pay	252
Assets Management	
Assessment of effectiveness of assets management	356
Purchasing	
Assessment of purchasing against core policies and principles	300

Description	Page
Consultants	
The annual report must include a summary statement detailing the number of new consultancy services contracts let during the year; the total actual expenditure on all new consultancy contracts let during the year (inclusive of GST); the number of ongoing consultancy contracts that were active in the reporting year; and the total actual expenditure in the reporting year on the ongoing consultancy contracts (inclusive of GST). The annual report must include a statement noting that information on contracts and consultancies is available through the AusTender website	341-342
(Additional information to be available on the Internet or published as an appendix to the report)	Online
Australian National Audit Office Access Clauses	
Absence of provisions in contracts allowing access by the Auditor-General	301-340
Exempt Contracts	
Contracts exempt from the AusTender	340
Financial Statements	
Financial Statements	359-461
Other Mandatory Information	
Occupational health and safety (Section 74 of the <i>Occupational Health and Safety Act 1991</i>)	258-262
Freedom of Information for the period 1 July 2010 to 30 April 2011 inclusive (see terms of subsection 8(1) of the <i>Freedom of Information Act 1982</i> as it existed prior to 1 May 2011)	199-200
Advertising and Market Research (Section 311A of the <i>Commonwealth Electoral Act 1918</i>) and statement on advertising campaigns	345-349
Ecologically sustainable development and environmental performance (Section 516A of the <i>Environment Protection and Biodiversity Conservation Act 1999</i>)	295-299
Grant programs	352-355
Disability Reporting - explicit and transparent reference to agency-level information available through other reporting mechanisms	256-257
Correction of material errors in previous annual report	463-466
List of Requirements	476-478
