ADF AIRCRAFT STRUCTURAL INTEGRITY SYMPOSIUM

Event Information

The Australian Defence Force Aircraft Structural Integrity Symposium (AASIS) is the only dedicated forum for military Aircraft Structural Integrity in Australasia. The theme for the 2019 AASIS will be ‘Innovative Sustainment’.

The Symposium is centred around: **Discussing Issues, Improvements, and Changes in the Aircraft Structural Integrity Environment.** The Symposium aims to develop and promote partnerships and networks amongst Aircraft Structural Integrity (ASI) professionals and vendors in the defence aerospace industry. These partnerships allow delegates to gain an insight into innovations in tools, technologies, and processes.

Target Audience

The Symposium is targeted at all personnel involved in the acquisition and in-service management of ADF aircraft systems, as well as interested representatives from foreign military forces, science and technology organisations, research and development centres, commercial aerospace organisations, airworthiness regulators, and academia.
