DASR 21
INTRODUCTION TO INITIAL AIRWORTHINESS COURSE

Course Code
215182

Course Duration
1 Day

Course Content
This course provides an introduction to the structure of DASR 21, initial airworthiness instruments and the elements of continued airworthiness. It also provides detailed explanation of the organisational requirements for the applicant or holder of a Military Type Certificate, design organisation approval and production organisation approval.

Target Audience
Anyone requiring a base-level understanding of initial airworthiness in the Defence Aviation Safety Framework. This includes people working in design organisations, Military Type Certificate Holders, Military Air Operators, or any of their service providers.
