

1. I was just writing to confirm whether contracts have been signed for the new water treatment plant for Lake Cochran at the Williamstown RAAF base, and if so, who the successful tenderer was?

Defence has awarded the contract for the new Water Treatment Plant, Lake Cochran to Synergy Resource Management Pty Ltd.

2. Also if a date has been set for when it will become operational?

It is anticipated that the Water Treatment Plant will be operational by late September 2016, subject to weather and commissioning requirements.
