

Question:

I am checking to see if the DSI (for WA sites) is now complete? If yes, when will Defence be in a position to share the results?

Response:

The Detailed Site Investigation (DSI) reports are anticipated to be completed for the following sites in the second and third quarter of 2018:

- RAAF Base Pearce
- Gingin Satellite Airfield
- RAAF Base Learmonth
- Harold E Holt Naval Communication Station A & B
- HMAS Stirling in Garden Island.

Once the DSI reports are complete, Defence will engage with the community regarding the results and next steps.

Further information on the investigations can be found at:
