

**Questions:**

Is there a community briefing on the PFAS issue in Sale soon?

**Response to all:**

Defence is planning a community walk-in session for early August to present the findings of the final Human Health and Ecological Risk Assessment as part of the detailed environmental investigation into the nature and extent of PFAS at RAAF Base East Sale.

When confirmed, the details of this event will be advertised through a variety of channels including in the Gippsland Times and on the Investigation website.
