1	Air Force	Combat Forces - Air Force	Air Command Australia	Air Combat Group	81 Wing	77 Squadron	77 Squadron	Air Force	Air Force - Permanent	06/07/1999	12362	Report Completed	Whilst carrying out gas training, one of the exercises involved entering the polluted area and in order to raise a sweat to feel the effects of the capsiicum spray I was ordered to do 10 push ups, 10 sit ups and ten star jumps. The ground was bumpy and on a slight incline where I was situated.
2				Combat Support Group	396 Exped Combat Support Wing	24 Squadron	Training Flight	Army	Army - Permanent	26/01/2003	45787	Report Completed	Activity: Primary OC spray exposure Agency: OC spray Mechanism: Due to first exposure to OC spray, unable to determine what went wrong. Recd DSM 05/02/03 Breakdown: OC spray exposure - Other Field Exercises/Training
3					Headquarters 396 ECSW	Wing Safety		Air Force	Air Force - Permanent	29/01/2010	223254	Report Completed	Pend Safety Co-ordinator As part of training, I was exposed to a given amount of OC, whilst eyes closed, the instructor sprayed water onto my forehead and then applied a given amount of OC spray, which was applied onto a cloth and then wiped over my forehead saturating my fringe hair, eye brows and skin. I was then told to open my eyes to see how many fingers the instructor was holding and immediately both my eyes were severely affected, especially my right eye, which hurt extremely bad in comparison to my left eye, as though a knife was piercing through it. It was later found in medical that an opening of some sort was found in my right eye hence the massive pain in that eye (Ref to Med docs).
4				HQ Combat Support Group	Operations Executive	Force Protection		Air Force	Air Force - Permanent	29/01/2010	214525 (1 of 2)	Report Completed	OC exposure for TSE6 members. Members had water sprayed on face, had a cloth sprayed with OC wiped on their forehead, then water was sprayed on forehead to seep over face and into eyes. Members then to hit bag with foam baton under influence of OC spray.
5		INACTIVATED DEPTS - AIR FORCE	Inactivated Depts RAAF >1Ju10	323ECS- TBI1JUL10	ISFLT TVL- TBI1JUL10	OSF- TBI1JUL10	Protective Security- TBI1JUL10	Air Force	Air Force - Permanent	05/11/2008	26757 (1 of 2)	Report Completed	Assisting Queensland Police in detaining a person, between Trainway Alpha and Runway 01, member tried to evade QPOL by running away. QPOL deployed OC spray on the person, I was down wind from the spray and suffered a secondary exposure.
6	Army	Forces Command	17 Combat Service Support Bde	1 MP BN	1 MP BN	1 MP BN	1 MP BN	Army	Army - Permanent	10/04/2006	30260	Report Completed	Activity: N/A Agency: Oleoresin Capsicum Spray. Mechanism: Member was unable to generate sufficient fluid in eyes to self cleanse the exposure. From Attached: 2. As soon as my eyes felt dry and gritty, I requested and was given by the medic, on site, saline solution to further rinse my eyes. This provided some relief and so I continued with the training exercise. I then completed the primary exposure and was directed by staff to the cleansing point. At this stage, my eyes were not seriously affected and I conducted the cleansing routine as normal. 4. At approximately 1800 hrs, I had not recovered and the pain in my eyes had worsened and I had also become light sensitive. I was driven to the RAP at 1HSB where the doctor initially treated me. The treatment consisted of flushing my eyes and providing me with pain-killers. The pain-killers worked temporarily and I returned to the ward when the symptoms continued. Breakdown: Planned Primary and Secondary exposure of OC spray as part of Defensive Tactics component Service Police Basic Course - Other Field Exercises/Training - RECD 10/05/06 BAW
7					HQ	HQ	HQ	Army	Army - Permanent	11/04/2006	30231	Report Completed	Activity: n/a Agency: OC Spray Mechanism: Secondary exposure to OC spray caused irritation to the eye the day after primary exposure. Left eye required irrigation by 1HSB RAP. Breakdown: Secondary exposure to OC spray after primary spray the day before - Other Field Exercises/Training - RECD 10/05/06 MSM
8			1st Brigade	1 ARMD REGT	1 ARMD REGT	1 ARMD REGT	1 ARMD REGT	Army	Army - Permanent	26/11/2004	64646	Report Completed	Activity: N/A Agency: OC spray Mechanism: Left and right eyes sustained burns requiring hospitalisation after the application of OC spray as part of ESF training. Breakdown: Being sprayed with OC spray - Other Field Exercises/Training - (recd 29/11/04 jdt)
9						1 ARMD REGT		Army	Army - Permanent	26/11/2004	65015	Report Completed	Activity: Immersion training Agency: OC Spray Mechanism: Member was conducting OC Spray exposure training and as a result, received serious burns to the eyes. Breakdown: Immersion training - Other Field Exercises/Training Received 7.12.04 ie
10						1 ARMD REGT		Army	Army - Permanent	26/11/2004	65108	Report Completed	Activity: N/A Agency: Capsicum spray Mechanism: Capsicum spray got sprayed directly into my face apart of training. Some of the spray got into my eyes. Breakdown: ESF/DACC training capsicum spray - Urban Warfare Training - SH - 09/12/04.
11						1 ARMD REGT		Army	Army - Permanent	07/12/2002	46389	Report Completed	Member was being sprayed with capsicum spray as [art of riot training exercises. Member had adverse reaction to capsicum spray, sore eyes. recd 09-12-2002 HM
12				1 CER	1 CER	1 CER	1 CER	Army	Army - Permanent	10/04/2005	70062	Report Completed	Activity: Nil Agency: Nil Mechanism: Exposure to OC spray - PPC training. Irritation in right eye after 1 hr. Breakdown: Exposure to OC spray - PPC training. Irritation in right eye after 1 hr. - am - 21/4/05 - other field exercises/training

13						1 CER	Army	Army - Permanent	18/02/2003	46171	Report Completed	Activity: Conducting ESF training - Other Field Exercises/Training Agency: OC spray Mechanism: Reaction to Capsicum spray Breakdown: ESF training with OC spray Recd DSMA 17/04/03
14			5 RAR	5 RAR	5 RAR	5 RAR	Army	Army - Permanent	20/04/2004	47584	Report Completed	Activity: Face sprayed with OC spray Agency: OC Spray Mechanism: N/A Breakdown: Exposure to OC spray - JM recd 22/04/04 - Not enough information given
15			HO-(TBI 1 Jan 14)	D Coy HQ	12 Pl		Army	Army - Permanent	12/05/2008	8-2705	Report Completed	Member was standing on the road providing traffic control whilst the a vehicle recovery task was in progress. Member felt fluid on his leg and traced that fluid to a utility pouch on his webbing. Member identified the fluid as OC spray and proceeded to remove his webbing. Once clear of his webbing member removed the M39 OC spray from his utility pouch and secured it in a zip lock bag. Once the OC spray was secured member proceeded to douse his leg with fresh water. Upon investigation of the M39 canister it appeared that equipment stored in the utility pouch had activated the M39 canister. Member was exposed to OC spray and received chemical burns.
16			8/12 REGT RAA	8/12 REGT RAA	8/12 REGT RAA	8/12 REGT RAA	Army	Army - Permanent	02/06/2006	81885	Report Completed	Activity: N/A Agency: OC spray, water, oxy-biva, fans. Mechanism: After being sprayed and completing training activity, member was standing in front of a fan and was having trouble breathing. The member then collapsed and was subsequently resuscitated. The RBMC Ambulance was called and arrived within 2-3 minutes. Medical aid was administered on site and the member, once stabilized, was taken to RBMC for further treatment. Breakdown: Member was undergoing OC spray training and after being sprayed had a severe reaction which required the member to be resuscitated. Other Field Exercises/Training - RECD CLB 02/06/06
17						8/12 REGT RAA	Army	Army - Permanent	26/06/2002	40463	Report Completed	OC spray exposure to TSE 17. Recd DSMA 27/06/02
18						8/12 REGT RAA	Army	Army - Permanent	26/06/2002	40475	Report Completed	Oleoresin Capsicum spray exposure. Recd DSMA 27/06/02
19		2nd Division	9th Brigade	12/40 RTR	HQ	Q Store-B Coy	Army	Army - Permanent	05/01/2011	292504	Report Completed	Capsicum spray was applied over eyes for training & have irritation after.
20		Army Training Centres	Def Comd Spt Trg Centre Units	DPTC	DPTC	DPTC	Army	Army - Permanent	06/09/2004	42929	Report Completed	Activity: Standing still being sprayed Agency: OC spray canister Mechanism: Reacted with face (skin) Breakdown: Exposure to OC spray In Basic Military Police Course - Other field exercises/training - RECEIVED 29.9.04 LE
