Those Australian companies involved in the GMC contract will be given the opportunity to register for NSM (Aust) supply chain, the Technical Support Network (TSN).

The benefits of being registered with TSN are:

- opportunities to access national and global supply chains through the NSM (Aust) parent organisations
- Participation and mentoring in a Supply Chain Improvement Program support by NSM (Aust) parent organisations.

NSM (Aust) Supply Chain Manager will also be responsible for the Management of AIC within the contract and:

- ensuring AIC targets are communicated to the project team, and incorporated into the detailed project planning process and supply chain activities;
- optimising the use of cost effective Australian industry options and investigating opportunities to increase AIC; and
- undertaking and managing continuous improvement activities relating to AIC.

### **Scope of Future Work Opportunities**

Although the involvement of Australian industry within the GMC contract is 98.55%, there may be further opportunities for Australian Industry to be involved in the following areas:

- Maintenance Support
  - Provide Shore Services
  - Safety Systems
  - Services and Repairs
- Supply Support
  - Management of Government Furnished Material
  - Obsolescence Management

## **Industry Engagement**

NSM acknowledges that our capabilities are built upon a strong and diverse supply chain and intend to maximise Australian Industry's ability to participate in the ANZAC Group Maintenance contract through coordinated road shows and industry briefings promoting any future work opportunities.

Should you be interested in becoming part of NSM (Aust) Technical Supplier Network please contact us by emailing [aic@nsm-aust.com.au](mailto:aic@nsm-aust.com.au) with any enquiries.
