Introducing the Defence Materiel Organisation

The Defence Materiel Organisation's (DMO) purpose is to equip and sustain the ADF and our first priority is to provide equipment for ADF units deploying on operations. We manage over 210 major capital equipment projects and over 150 minor projects, and we also sustain and upgrade over a hundred existing fleets.

The DMO will manage over \$130 billion of acquisition and sustainment business in the next 10 years. On Defence's behalf, we also manage one of the largest holdings of physical assets and inventory in the country valued at more than \$37 billion.

Under the leadership of our Chief Executive Officer Dr Stephen Gumley, our vision is "to be the premier program management, logistics and engineering services organisation in Australia".

The 2009-10 DMO Budget provides resourcing of \$11.8 billion across the three DMO Programs:

- 1.1 Management of Capability Acquisition (\$6.2 billion up from \$4.5 billion)
- 1.2 Management of Capability Sustainment (\$5.4 billion up from \$5.1 billion)
- 1.3 Provision of Policy Advice and Management Services (\$0.1 billion)

The ADF's operational success depends on us providing its capabilities on time, on budget and to the required levels of quality and safety. The DMO employs more than 7,800 people over 40 locations in Australia and overseas.

The Position

Overview

Electronic Systems Division (ESD) is one of the operations divisions of the Defence Materiel Organisation (DMO) and is responsible for the acquisition and through-life support of major and minor electronic capital equipment that will deliver the knowledge edge to the Australian Defence Force.

The Division's projects are concerned with information, command, control, communications, radar, electronic warfare, space and related systems.

The DMO provides challenging and varied work, and opportunities for professional and career development within a unique work environment. It is also an opportunity to receive exceptional working conditions, and the chance to balance work with your other interests. You do not need to have prior DMO experience to apply for these positions.

DMO has an exciting array of projects on the horizon and we are looking for **Project Schedulers to assist with the development and maintenance of project schedules.**

In these unique roles you will have the opportunity to contribute to the development of project plans and ensure the required performance, cost and schedule estimates are realistic and achievable.

- Do you thrive on achieving real results and applying your knowledge and experience in a fast paced and dynamic environment?

- Do you want to work on leading edge projects in a close knit team environment?
- Would you like the benefits of job security and flexible working conditions?

Then this is the job for you!

Position Duties

Under limited direction undertake the following duties:

1. Develop and manage the project schedule using DMO's corporate scheduling tool; open plan profession (OPP).
2. Integrate and manage the contractor's master schedule and project risks within the project schedule.
3. Manage and coordinate schedule, risk, earned value management, planning, analysis and reviews within the project office.
4. Prepare reports/briefs for the Project Managers relating to project schedule performance and risk management.
5. Liaise with DMO corporate staff on matters relating to Schedule and Risk management controls.
6. Proactively assist in maintaining the standard of schedule/planning/risk management in the Electronic Systems Division.

Selection Criteria

1. Demonstrated extensive experience in management of project office schedules for major capital equipment projects, including a high level working knowledge of open plan professional.
2. Demonstrated experience of integrating risk and contractor master schedules within project office schedules.
3. Demonstrated experience in coordinating and performing analysis and reviews of the project and contractor's schedules for earned value, risk planning and management.
4. Demonstrated experience in preparation of reports, briefs for the project managers, stakeholders, contractors relating to project schedule performance, earned value management and risk integration.
5. Proven ability to cultivate strong working relationships with internal and external stakeholders.
6. Demonstrated high standard of written and oral communication skills and the ability to communicate with influence.

Desirable – Minimum 5 years project scheduling experience.

Please note: This selection process may generate a Merit Pool of suitable applicants which may be used to fill upcoming Project Management vacancies in ESD.

Professionalisation

The DMO is seeking to recruit individuals with a commitment to ongoing professional development and our employees are encouraged to achieve and maintain professional status in a professional field.

The DMO's Professionalisation Initiative is a central strategy in DMO's *commitment* to meet the challenges of the future. This initiative for professionalisation and up skilling processes will be implemented to cover the entire DMO workforce. Prescribed eligibility requirements apply. The DMO is interested in candidates who can demonstrate an ongoing commitment to their own, and their staff's, professional development through achievement of chartered status or an equivalent form of professional recognition.

A key objective is to develop chartering/certifying processes and programs that enable our workforce to register competence through assessment against the highest standards available. They include formal professional certification programs that are awarded by a professional body or society, as currently applies to lawyers, engineers and technical officers, and accountants in DMO.
