Purpose of newsletter

This newsletter advises ADF members about the development of the 2014 Workplace Remuneration Arrangement (2014 WRA).

WRA proposal so far

The WRA team is finalising the productivity and efficiency initiatives identified by ADF members during the information presentations conducted during June/July 14.

The productivity savings identified will form the basis for the proposal, including options for the 2014 WRA to be presented at the Chiefs of Services Committee (COSC) on the 22 August 14.

Where to from here

Further advice will be provided after COSC consideration of the proposal. Case finalisation will include consultation with the Governments advocate and the Defence Force Advocate. Once the case is finalised, current timings have it being presented to the Defence Force Remuneration Tribunal in October 14.
