Clarifying Statement

Please note that Mr Corcoran has advised that there are a few factual errors in the Contingency Talking Point Pack and the Defence Communication Strategy. Specifically, in the Background Talking Points of the Contingency Talking Point Pack, Point 1 refers to two males and four children being killed. This is incorrect. One male and five children were killed. Furthermore, in the Contingency Questions and Answers section, Question 51, Point 5 incorrectly states that the position of Registrar of Military Justice was created by section 188G of the Defence Force Discipline Act 1982. This should have read section 188F. Some of these errors have also been duplicated in the Defence Communication Strategy.
