

ADF FAMILY HEALTH PROGRAM – QUICK GUIDE

This Quick Guide should not be used in isolation, and all medical practice staff should read the detailed Guidelines provided by Medicare Australia. Guidelines can also be viewed at:

http://www.defence.gov.au/health/Dependant_Healthcare/i-healthcare_MPs.htm

When a Defence family member presents at your practice they will be expected to identify their participation in the Program using their ADF Family Health Card, which will have an “M” or “M/D” beside their name indicating they have registered for **Medical** benefits or **Medical and Dental** benefits. If a dependant only has “D” beside their name, they are not eligible to receive the benefits associated with the trial, and no Program payment will be made.

An example of the ADF Family Health Card is shown below:

← Dental Benefits only

The Program is intended to cover basic medical services in a general practice setting. The MBS Item Numbers that attract the ADF Family Health Program Payment (eligible items numbers) are listed to the right.

Dependants will be required to present their Medicare Card to enable the bulk billing of eligible item numbers.

If a dependant requires treatment that is not covered by an eligible item number, a Program payment will not be made for this service and usual billing practice may be appropriate.

NOTE: Whilst multiple eligible services may be provided within a visit, there is only one ADF Family Health Program Payment available per visit.

ASSISTANCE: For information related to your registration or a payment made under the Program, please call **1 300 301 505**. For any other information related to the Program, please contact the Department of Defence on **02 6266 4467**.

Revised as at: 1 June 2009

ELIGIBLE MEDICARE ITEMS PROVIDED BY MEDICAL PRACTITIONERS IN A GENERAL PRACTICE SETTING

Please check with your doctor to determine if treatment is covered by the trial

Consulting Room Attendances
