Most Navy Reservists will by now be aware that a significant number of new Funded Reserve Commitment positions have been created as part of the Naval Reserve Capability Enhancement Program (NRCEP).

The program and new positions were announced by Chief of Navy VADM Russ Shalders CSC AO RAN at the NR Symposium in February this year. This announcement followed CN Senior Advisory Committee endorsement for new Naval Reserve 'capability statements' in November 2005.

The new positions are funded to provide not only new employment expenses but also travel and training costs in an initial three year 'stand up' period and then ongoing.

The next challenge for the program is to recruit and employ the most appropriate Reserve Personnel for the new positions.

As part of that process *Reserve News* is publishing details of the positions and readers are invited to see if a job fits your category/PQ, rank and availability on the nearby table.

Initial duty statements are largely complete except for the Patrol Boat FEG which is still finalising the Reserve structure and contribution for the new Armidale class patrol boats.

Ensuring appropriate training and currency levels are maintained is a key feature of the Naval Reserve Capability Enhancement Program, which delivers these new positions.

These new positions are exciting opportunities for Reservists to contribute directly to Navy 'sharp end' capability both at sea and ashore.

Reservists who take on a NRCEP job will benefit from defined career progression and improved promotion prospects.

Travel funding to move Reservists from their home locality to the employment locality has been provided as part of the NRCEP.

Training for Reservists will be managed in the same manner as for PN members through position pre-requisites identified on each duty statement. Travel and training will be provided by NPTC-S once members have been panelled to the relevant course.

If you are interested in applying for a new position, either at sea or ashore, under the program, details of the points of contact are set out below.

Continuous Full Time Service positions

New full time Reserve jobs available now!

There is an increased range of CFTS positions now available to Naval Reservists for varying lengths of service and in different locations around Australia. Individual positions and periods of service are a matter of negotiation.

CFTS is increasingly being used to support the PN workforce.

If you are interested in finding out more about CFTS initial contact should be made with one of the branch or FEG contacts below.

CEP CONTACT LIST

This contact list is intended for use with the list of jobs which was accurate at July 24, 2006.

Run a ruler over the job list, highlight or mark anything you're interested in and pick up the 'phone.

BAND	WO Dale Granger	0408 038 389

While not all branches or groups, in particular the Patrol Boat Group, are represented in the jobs identified in the *Capability Enhancement Program* positions, they would welcome inquiries from suitably qualified people who believe they have skills which would be of use.
