May 24, 2008

Dear Secretary,

My name is Georg Karlov and for the past three or so years I have been working with John Samuels of Warwick Qld and Michael Montgomery of UK on the HMAS SYDNEY story.

The one thread through all is the effort that RAN has gone to suppress any information that is contrary to theirs. It is actually amazing when one puts all of it together

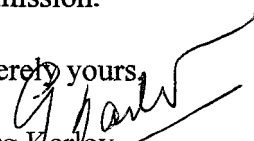

I have been working on gathering as much evidence as I can for a documentary that is realistic and not the ~~purely~~ ^{possibly} and dishonest documentary that the ABC showed a few weeks ago.

I am sending you a summary of what we have amassed. Some of it is 100% provable from documents and recorded evidence. Some of it comes from research of the people whose the names I mention at the beginning of the pages.

I am quite happy to provide what I have to the Cole Commission. We have previously offered to pass it to RAN on the condition that our legal people are present but the Navy chose not to take up the offer.

I will be in US until June 4 but will then be able to provide back up documents for the commission.

Sincerely yours,

 Georg Karlov
 KMS

[REDACTED]

P. S.

I was a class mate of Mr Justice Cole in 1954 at Fort Street Boys High School. I am sure that this does not matter but I thought that I would state it for the record
