Question I would liked answered

What ship was seen off Dirk Hartog Island or Steep Point on the morning of the 19<sup>th</sup> November 1941.

Why did a very important ship, The Aquitania stop in midwater to pick up men in a life boat when it was a no no to stop, when speed was it defence.

So many people claimed to have heard messages from Sydney 2.

The Whale boats, have they been hit or burnt.  
How bad is Sydney 2 burnt.

In 1992, The then Justice Minister Michael Tate stood up in Parliament and said, if any person that was in the services spoke about anything that he or she learnt during their services time would be severely dealt with, in accordance with the 1914 Crimes Act, maybe this is why people do not come forward to talk, I have enclosed a letter from the Navy on this point.

Could not the Honourable Terence Cole waive the Crime Act of 1914 only on the Sydney 2 if it not done now, then it never will,  
- this is our last chance

John Harrison.
