Dear Edmund,

thank you very much for your "Kormoran Association thank you letter" and for the enclosed DM 130 --. Frankly spoken, I do not feel very happy about the DM 90-- for your stay at the Hummelsbüttel hotel. As you will remember I invited you in the names of the Kormoran participants to come over to Hamburg and to stay at the Hotel Stadt Altona and at the Condi Hotel. We all, not only I, were very glad about your coming and about the result of your visit. I think I may write, you left Hamburg as a friend of us and will come again, whenever you like to come, whenever there are problems about Sydney/Kormoran which can be solved between us, or for any other reasons. Of course, you will not meet as many men as now in November but just a few will always be at hand. And, if you will stay long enough we can show you beautiful Hamburg and her beautiful environs. This our invitation is valid as long as you will like to come.

The DM 90-- were transferred to the Kormoran banking account in the meantime.

You mention in your letter you would have liked to talk to me about my experiences on Kormoran and in Wartime Australia. Well, Edmund, what hinders you to come over here when you have the opportunity? And when Mrs Jones can leave the children under the care of a qualified person, we shall be glad to shake hands with her.

Well, Edmund, let these lines be enough for today. I still have to write five letters to Australia and they are expected to arrive there before Christmas.
