Comments: **Attn: Mr Richard Sojka As the IT and Web manager for FSF I Would like to inquire about the photograph released by FSF of the Sydney lifeboats where they appear to have been altered. The one I refer to has the top part of the rear lifeboat lifeboat deleted and the nearer one in the middle of the boat and in the shadow beside the boat in the foreground. Was there some pertinent reason for these alterations ? I have had several inquiries from various relatives about this Sincerely James Eagles**
