

*Hi*

*Further to my promise to try and keep updating the information I published in Operation Fish 1941, please find the additional information enclosed – with my compliments.*

*This looks like being the final mail-out of information as the job has become too large for me to handle anymore. I hope everyone has been satisfied with the information that I have found. Keep the Sydney in mind always and don't forget their sacrifice was not made in vain.*

*Best Wishes to you all*

*Jim and Anne*
