Subs which were to act as screen for the task force at Oahu?

How many subs were in this force, I wonder? Five (5) subs with 5 midgets

I assume this was the course taken by the subs carrying M/S to Oahu. (ie 5 large subs)

Am I correct in assuming that the dotted lines indicate courses taken by submarines?

Would it be possible to say what this course indicates? Is it known how many subs were in this force?
