1 In early November 1941, I.J.N.'s entire operational vessel were being her home port to prepare for long operation.

2 Unfortunately, such files of documents on the details of patrols by Japanese submarine are not available at our military archives.

3 I am going to visit Trino in Italy from Aug. 29th, to Sept. 7th. to participate in the international conference of Military History. I am going to present my paper and take a chair at one of the session.

Very sincerely yours,
