

August 26, 1992

Professor Teruaki Kawano,  
Military History Department,  
National Institute for Defence Studies,  

Dear Professor Kawano,

Thank you very much for your fax of August 26. This has been most helpful and I think I now have a good understanding of the location of all major submarines at the time in question.

I hope you have an enjoyable visit to Trino at the International Conference on Military History. The weather there should be good at this time of the year.

With all best wishes and thanks for your assistance,

David Jenkins
