

September 2, 1992

Dear Mr. David Jenkins,

Thank you for your two letters, 26 August and 27 August. I have found only a few misspellings in Battle Surface. You have done very well. Also I have been interested your article about HMAS Sydney.

1. The name of the code used by I-class submarines.

Rear Admiral N. Fujii will inquire to his friend who was the radio operator of the 6th Fleet Head Quarters.

2. The location of I-59, I-60 and I-12/ etc on Nov. 19.

Professor Kawano will check and tell you soon.

3. The map on page 22 of Battle Surface is correct. But strictly speaking, I-1 left Yokosuka on Nov. 21, while other submarines of 2 SSB left Yokosuka on Nov. 16.

Last week, some news reporter asked to me about the tracking of five midget submarines off Pearl Harbour. I sent him the copy of page 24 ~ 31. your description is brief but to the point.

yours sincerely,

Kazuo Ueda

P.S. I enclose the copy of "Proceedings" (Naval Institute of U.S.N.) about the code operation.
