

Australia-Singapore Military Training Initiative

Newsletter | June 2019

A message from Brigadier Mark Brewer

In May, I visited Marlborough in Central Queensland alongside Laing O'Rourke, Managing Contractor for the Shoalwater Bay Training Area Facilities Project. We talked to the community about the range of activities that will take place over the coming months and years to expand the military training area. This was a positive meeting. It was also a great way to engage with the local community, answer questions and listen to feedback, which is something we remain committed to doing as the ASMTI progresses.

Laing O'Rourke update industry in Central Queensland

Throughout May, Laing O'Rourke hosted industry briefings in Rockhampton, Yeppoon, Gladstone and Mackay, as well as a drop-in information session in Marlborough.

These briefings provided industry and community members with an update on the progress of the ASMTI and details of early works packages available, including signage, fencing and civil works.

For more information about early works at the Shoalwater Bay Training Area, email ASMTI@laingorourke.com.au.

Community members at the Marlborough drop-in information session on 21 May 2019.

Call for Capability Statements in North Queensland

Local businesses are invited to submit their business skills and capabilities in the format of a Capability Statement before works commence at the Greenvale Training Area later year this.

Submitting a Capability Statement does not guarantee work, but helps Defence assess the capacity of the local workforce and create a pool of interested individuals and businesses.

To download a template of the Greenvale Training Area Capability Statement, visit the ASMTI [website](#).

Interested parties must submit their completed Capability Statements by 31 July 2019 for early works. Capability Statements will be accepted after this date for major works packages.

Capability Statement Briefing – Greenvale

Join Defence representatives at a briefing in Greenvale. Find out how you can communicate your business' skills and capabilities before early works commence later this year.

10.30am – 11.30am

27 June 2019

Greenvale Community Hall
