Subject: impact on residents

Dear Sir/Madam,

I live at Potts Point in a 50-year old block of units next to Cowper Wharf Roadway, I write to plead for the residents here in this very densely populated area above Woolloomooloo Bay. We have quite a lot of noise and pollution from Garden Island and the navy now but we are happy to live with that for the pleasure of a glimpse of Woolloomooloo Bay from our units. Is any consideration to be given to us when deciding whether to establish a shipping terminal at Garden Island? I'm sorry that I'm not well prepared to make a submission but the thought of brick walls and super liners in front of me is unbearable. At present when the Queen Mary is berthed here it is as though it is in my living room and that is absolutely fine because it is a temporary arrangement but the thought of this arrangement being made permanent, with associated development, is devastating. Elizabeth Franklin.
