

COOK AND TIROAS BARRACKS REDEVELOPMENT VANUATU POLICE FORCE INFRASTRUCTURE WORKS

The Governments of the Republic of Vanuatu and Australia are working together to deliver a large infrastructure project for the Vanuatu Police Force in Port Vila and Luganville, as part of the strong and enduring security partnership between our two nations.

Delivered in partnership, the project will provide enhanced and resilient infrastructure and facilities for the Vanuatu Police Force in support of their growth and capability development. The infrastructure works will include a large-scale barracks upgrade at Cook Barracks in Port Vila and construction of new buildings at Tiroas Barracks in Luganville.

These works will build on decades of engagement, cooperation and friendship between our security forces under the Vanuatu-Australia Defence Cooperation Program.
