# Australian Government Security Vetting Agency

The Australian Government Security Vetting Agency (AGSVA) is the central vetting agency for the Australian Government and conducts security clearance assessments for federal, state and territory agencies.

## Security Clearance Levels

Clearance Level	Level of access
Baseline	Classified resources up to and including PROTECTED.
Negative Vetting Level 1 NV1	Classified resources up and including SECRET.
Negative Vetting Level 2 NV2	Classified resources up to and including TOP SECRET.
Positive Vetting (PV)	Classified resources up to and including TOP SECRET, including caveated and code word information.

## Security Clearance Eligibility & Suitability

### Eligibility

To be eligible for an Australian Government security clearance, you must meet the following eligibility requirements:

- **Australian citizenship** – determined by the sponsoring entity before requesting a clearance.
- **Checkable background** – determined by AGSVA as part of the vetting assessment.

In exceptional circumstances the sponsoring entity can elect to waive one or both of these requirements.

## Suitability

The security clearance process will determine your suitability to hold a security clearance. Suitability is determined through an assessment of the individual's overall integrity.

In the security context, integrity is defined as a range of character traits sufficient for the Australian Government to have confidence in your ability to protect Government resources and information.

The character traits are:

- Honesty
- Trustworthiness
- Maturity
- Tolerance
- Resilience
- Loyalty

## Privacy

AGSVA recognises and respects your privacy. The collection, handling, use and disclosure of your personal information is undertaken in accordance with the Australian Privacy Principles set out in the *Privacy Act 1988*.

You may be asked questions that explore personal and sensitive aspects of your life, such as your relationships, finances, alcohol and drug use, and social or political views. You may be uncomfortable with some questions, or view them as intrusive, however it is important that you answer all questions openly and honestly.

AGSVA's vetting officers and psychologists are qualified professionals who are committed to completing vetting assessments in an objective manner. AGSVA staff are focused on determining your suitability to access sensitive and classified resources and will undertake careful consideration of the whole person.

Past activity or behaviours do not automatically disqualify you from attaining a security clearance. It can be possible for vetting officers to mitigate risk areas where there is sufficient evidence of reform.

# The Vetting Assessment Process

## Clearance Request

If your role requires you to hold a security clearance your employer will notify you and submit a clearance request on your behalf to AGSVA. Individuals cannot sponsor their own security clearance.

## Security Clearance Package

The Security Clearance Package has two submission components:

<b>1</b>	<b>Online ePack questionnaire</b> You will receive an email with your logon details for AGSVA's eVetting portal including the first half of your password. Your security advisor will provide you with the second half of your password. You will need to logon and submit your ePack questionnaire online.
<b>2</b>	<b>Sending forms and personal documents to AGSVA</b> Forms: <ul style="list-style-type: none"><li>• <i>SVA100 Informed Consent Acknowledgement</i></li><li>• <i>SVA084 National Police Checking Service (NPCS) Application</i></li><li>• <i>SVA041 Statutory Declaration</i></li></ul> Personal documents: <ul style="list-style-type: none"><li>• as identified in the <i>Security Clearance Package Checklist</i></li></ul>

You will receive an email with your logon details for AGSVA's eVetting portal including the first half of your password. Your security advisor will provide you with the second half of your password. You will need to logon and submit your ePack questionnaire online.

Once you have completed and submitted your ePack questionnaire the above forms and a personalised '*Security Clearance Package Checklist*' will become available to you. The checklist will identify the documentation you are required to provide, and provide instructions on sending your completed forms and personal documents to AGSVA.

Once your Security Clearance Package is received by AGSVA, your submission will be assessed for completeness, and any missing information will be requested from you.

## Vetting Assessment

Once your Security Clearance Package has been accepted as complete, AGSVA's vetting assessment begins.

Depending on the clearance level requested, AGSVA may contact you to schedule a psychological assessment. AGSVA will initiate external checks and allocate the case to a vetting officer. During the assessment the vetting officer will contact or conduct interviews with you and your referees.

Once all the required information has been gathered the vetting officer will make a recommendation on your suitability to hold a security clearance.

## Decision

An authorised decision maker from AGSVA will review the recommendation and finalise the decision for cases being granted or denied. AGSVA will then notify you and your sponsor of the outcome of your security clearance application.

In the event that your clearance application is denied or an existing clearance revoked, you can ask for a review of the decision. For further information on decision review please visit the AGSVA website.

## Vetting Timeframes

Clearance level	AGSVA issues Security Clearance Package	Applicant completes Security Clearance Package	AGSVA completes vetting assessment

# Nominating Referees

Referees play an important role in the security clearance assessment, helping to support information provided by you and collected during the vetting process.

When selecting your referees, consider the following:

- Where possible, referees should be Australian Citizens or permanent residents. Where this is not possible, referees should be citizens of the USA, Canada, the UK, or New Zealand. Referees from other countries may be considered, however additional coverage may be required.
- A referee must know you in either a personal or professional capacity; they cannot be related to you, or be a partner/ex-partner.
- A referee must have had regular contact with you over an extended period of time.

You may nominate multiple referees to cover different times over the checkable period where individual referees have not had continuous contact with you.

Please ensure your referees are available to be part of the process. One cause of delays during a security clearance process is the availability and responsiveness of referees.

## Referee requirements by clearance level

Clearance Level	Minimum Referee Requirement
Baseline	1 referee, including 1 supervisor who can account for a period of at least 3 months
Negative Vetting Level 1	2 referees, including 1 supervisor who can account for a period of at least 3 months, and 1 or more personal referees to cover every period of your life for the past 10 years
Negative Vetting Level 2	2 referees, including 1 supervisor who can account for a period of at least 3 months, and 1 or more personal referees to cover every period of your life for the past 10 years
Positive Vetting (PV)	5 referees, including 1–2 supervisors, and 3-4 personal referees to cover every period of your life since the age of 16, or for the past 10 years (whichever is greater)

# Maintaining your clearance

## Reporting changes in circumstance

In order to maintain your Australian Government security clearance you have a personal obligation to inform AGSVA of any significant changes to your personal circumstances. You can report changes in personal circumstances to AGSVA by completing a *Change of Circumstances* form available on AGSVA's eVetting Portal.

Visit the AGSVA website for a list of reportable changes <https://www.agsva.gov.au>

## Periodic revalidations

All security clearances are required to be reviewed at regular intervals.

AGSVA will advise you when your security clearance is due for review.

Clearance Level	Baseline	Negative Vetting 1	Negative Vetting 2	Positive Vetting
Revalidation Interval	15 Years	10 Years	7 Years	7 Years
