

TABLE OF CHANGES
ASDEFCON (SUPPORT)
VERSION 5.0

General Changes

Changes introduced in ASDEFCON (Support) V5.0 include:

- The Enhanced Australian Industry Capability (AIC) Framework;
- Changes made as a result of feedback obtained through the ASDEFCON Review;
- The Payment Times Procurement Connected Policy; and
- Building Code, Child Safety and Modern Slavery requirements.

Some changes were also made to improve the structure of the Statement of Work, mainly for AIC, and minor changes have been made throughout the template to improve the alignment and consistency of clauses across the ASDEFCON template suite.

Due to the number of changes made in relation to the Enhanced AIC Framework across the template, these are specifically identified in the tables below
