Hi s47E(c),

I am wondering if there is any chance we can re-attack the Fiji option for the basing of the air asset (C-27J) for Op SOLANIA 21-2 (OP TUI MOANA). We are looking for a resolution as it is now only 3 weeks out from anticipated deployment date, and the locational uncertainty is limiting AOC's ability to continue planning and set support options in place.

Regards,

Good morning AOC WATCH,

Further maintenance and investigations were carried out on the C-27J this morning deployed to Nadi, Fiji. In depth inspections of s33(a)(ii) [REDACTED] was conducted, with nil safety concerns noted. The most likely cause of the s33(a)(ii) [REDACTED] is believed to be s33(a)(ii) [REDACTED] [REDACTED] not reasonable to inspect without incurring significant delay to RTA and potential spare parts flown to location.

s33(a)(ii) [REDACTED]

This afternoon the det will complete operational admin and prepare for RTA tomorrow.

Any questions please reach out.

Good afternoon team,

Can we please have the attached storyboard edited and then featured in an upcoming CDUB.

Happy for 35SQN to be named in the narrative as 'providing' the crew and aircraft. The rest of the 'branding' needs to be s33(a)(ii) and AOC 'patch': s33(a)(ii) however the remainder of the outcome reads well ... s22 conducted highly desirable etc etc ... '

Much appreciated.

Cheers
