Subject: FW: Gudai-Darri Radiation Hazmat Incident Survey Operations Plan [SEC=OFFICIAL]

OFFICIAL

s47

Allow me to introduce s47E(d) (Mobile: s22) who will be filling the role of LO to Commonwealth agencies and WA DFES for the duration of the task.

s47E(d) please find linked and below the scope and plan for the teams meeting this afternoon.

I will step back out of the meeting now as MSC does not have a voice in the operational and tactical conduct of the event, but should anything for the strat level pop up, please don't hesitate. JOSS WA are also contactable, and any further request or reviews can be pushed through NEMA. However I think we all hope the material is found before that becomes necessary to consider.

Yours Aye,

s47E(d)

Hi,

Please see below the suggested ops plan to conduct the radiation survey from Perth to the Mine Site north of Newman.

We are finishing off a document with full details about the plan, SMEAC Briefing, roles' & responsibilities, accommodation, flights, and recovery process (if we find it) etc. and hopefully that'll be complete for our Teams meeting.

Please advise if the suggested time does not suit.

Thank you s47F
