

HMAS Cerberus document archive

The HMAS Cerberus document archive contains links to information that Defence has published about the management of per- and poly-fluoroalkyl substances (PFAS) on and around HMAS Cerberus. It includes older community presentations, investigation reports, risk assessments and factsheets. Please note that some information in these archived documents has been replaced with information found in more recent reports and factsheets. For the most current information about PFAS contamination at HMAS Cerberus, please access the latest factsheets and reports on the PFAS Investigation & Management Program website.

Defence's archived documents are provided by the National Library of Australia's TROVE archive. If you are experiencing issues accessing the documents, please use the contact details in the Contact Us section at the end of this document.
