

**Australian Government**  
**Department of Defence**

The following table provides the number of permits, approved by Defence Export Controls (DEC), for the exportation of goods and technologies on the Defence and Strategic Goods List (DSGL) to Israel between the dates of 7 October 2023 to 16 October 2023.

Permit approvals should not be confused with weapons sales. Export permits are required for a wide range of goods and technology, many of which are used for civilian and commercial purposes. This includes where items must return to their original manufacturer for return and repairs.

Permits approvals should also not be confused with completed exports, as there is no requirement to complete an export once a permit is issued.

***Table 1: Permits approved by DEC between 7 October 2023 to 16 October 2023 for Military Goods to Israel***

Permits issued between 7-16 October 2023
