OFFICIAL

Morning s47E(d), DG has cleared the media release – yay = she recommends deleting F-35 weblink which is dated and tasking Industry to update it. However I wasn't tracking this task at all but found it this morning somehow – s47E(d) was trying to get it sorted at the time for OMINDI 'event' but as that didn't happen its fallen to the back burner.
If she could clear it now that would be great – s22

Notes:
s22

- There was a dated weblink to F-35 Industry/CASG webpage which has been deleted for now if the intent is to publish tomorrow (27 Oct). There is a separate task under way to update this ACS Industry/CASG webpage but this will not be ready in time for this morning's deadline. I would think that this can be added to the live version post initial publishing of this media release given its on our own Defence webpage. s47E(d), thoughts on this – do you wish to hold to wait for this element, or continue? It would take quite a few days probably. In the meantime, suggest getting HASD clearance.

Cheers

OFFICIAL

Hi s47E(,

Further to my previous email, I forgot to include the additional recommendation:

Under the Global Support Solution section, change the wording to the following s47C

s47C

s47C

I reviewed the document and have s47C recommendations for the Economic impact paragraph (added in italics below for reference):

Economic impact

In February 2017, PwC released an independent assessment of the impact the F-35 Program is having on the Australian economy.

The report forecasts that the F-35 Program would support an additional 6,000 jobs and add AU\$1.2 billion to Australia gross domestic product (GDP) by 2038, if approximately AU\$5 billion (adjusted for exchange rates) in production contracts are awarded to Australian companies. The Defence forecast for F-35 production contracts was AU\$1.5 billion to AU\$3 billion

s47C

s47C

For the May 2023 graphic displaying the Australian suppliers named beside the F-35 aircraft, I recommend the following changes s47C:

s47C

Please let me know if you have any questions about my recommendations.

G'day s47E(d), as discussed, please find content currently earmarked for DGACS clearance.

Background: ACS Industry s47E(d) wish to update the CASG weblink (Webpage - About - CASG - Our Structure - Air - JSF - Industry Participation) to reflect the new Australian participation contract value which now exceeds the \$4 billion figure and is a fitting link to have embedded the s47E(d) s47E(d) future JSF industry media product. This version has been cleared by Industry team and is awaiting DG clearance. In the meantime, appreciate if you could review and if there are any amends please use track changes and send back to ACS Exec inbox.

Unsure of deadline and your capacity but if this could be done by COB Thursday 2 Nov or sooner that would be grand.

s47E(d) /Industry: FYSA.

Cheers and thanks for offering to do this.

Industry Participation

The F-35 Program is transforming Australian industry as it contributes to the global production of F-35 capability and prepares to support F-35 Global Support Solution with Indo-Pacific regional depot repair capabilities.

The Aerospace Combat Systems Branch within the Capability Acquisition and Sustainment Group (CASG) is working closely with the US Government and the Prime contractors (Lockheed Martin and Pratt & Whitney) to identify opportunities to expand Australian industry participation in the global F-35 Program.

As part of the Australian industrial participation in the F-35 Program, there have been a number of observations made of potential industry outcomes, inclusive of the 2017 Pricewaterhouse Coopers (PwC) 'Economic impact of Australian industry participation in the Joint Strike Fighter program', report.

Australian Industry is performing beyond expectations as part of the F-35 Program, winning long-term production and sustainment contracts. As at June 2023, Australian industry has won over AU\$4 billion of contracts.

Information on Australian industry participation - including the release of 15 company stories that highlight their journey and involvement with the F-35 Program - is available to be downloaded:

Economic impact

In February 2017, PwC released an independent assessment of the impact the F-35 Program is having on the Australian economy.

The report forecasted that the F-35 Program would support an additional 6,000 jobs and add AU\$1.2 billion to Australia gross domestic product (GDP) by 2038, if approximately AU\$5 billion (adjusted for exchange rates) in production contracts are awarded to Australian companies. Previous Defence forecasts for F-35 production contracts was AU\$1.5 billion to AU\$3 billion, however, as at June 2023 this has grown to AU\$4.13 billion.

[Economic impact of Australian industry participation in the Joint Strike Fighter program — PDF 1.22 MB](#)

Joint Strike Fighter Industry Support Program

The JSF-ISP Sustainment Grant supports the development of new or improved capabilities that enhance Australian business' opportunities to win work in the production, sustainment and modernisation phases of the F-35 Program.

Global Support Solution

Australian industry continues to benefit from the growing capability and capacity opportunities associated with the size and scale of the F-35 global enterprise, principally through the F-35 Global Support Solution (GSS).

In 2015, the US Government made regional maintenance, repair, overhaul and upgrade (MRO&U) assignments to Australia for F-35 airframe and F135 engine depot maintenance with the following companies selected by Defence for activation:

- BAE Systems Australia, based at Williamstown in New South Wales, for regional F-35 airframe depot maintenance for the South Indo-Pacific region
- TAE Aerospace, based at Brisbane in Queensland, for regional F-35 engine depot maintenance for the Indo-Pacific region.

In 2016 and 2018, the US Government made regional F-35 component MRO&U assignments to Australia for 407 of 456 components for the Indo-Pacific region. Defence selected the following companies to activate this F-35 component MRO&U capability in Australia:

- BAE Systems (NSW)
- GE Aerospace Australia (QLD)
- Northrop Grumman (NSW)
- Rosebank Engineering (VIC)
- Survitec (NSW)
- Moog Australia (VIC)
- Leonardo Australia (VIC)
- L3Harris Australia (QLD)
- NIOA (QLD)
- Martin Baker Australia (NSW)

In 2017, the US Government assigned Australia the F-35 regional warehouse for the Indo-Pacific region with activation of this capability at BAE Systems Australia in Williamstown, NSW.

[Industry Participation](#) | [About](#) | [Defence](#)

If you are interested in getting involved in the F-35 Program, please contact the [Office of Defence Industry Support \(ODIS\)](#).

G'day s47. How are you?

Recall: DGACS cleared this content, but I've only had a chance to have a look at this due to "overload"!

I have tried quite a few times but I can't find the actual link to this content so I can get the CASG web team to upload it. Very frustrating.

In the absence of s47E(d), you are probably the best bet in having this link somewhere to share with me given your length of service with Industry.

There are a few links within a few of the emails within the tasking folder but they all default to the main CASG Webpage.

Any ideas?

Cheers

Good morning s47E(d),

Attached is the email that I send you in August this year outlining the proposed changes and reasoning.

I received a response from your confirming that we were good to implement all recommendations. The changes were actioned on 30 October.

The content can still be accessed via the Government Web Archive if desired - <https://webarchive.nla.gov.au/awa/20220326124756/https://www.defence.gov.au/about/capability-acquisition-sustainment-group/our-structure/air/isf/industry-participation>.

Kind regards,

s47E(d)

s47E(d)

G'day s47E(d), as per email attached, DGACS and ACS Branch are trying to understand what happened to the following link as outlined in a question posed by The Guardian (as part of a media enquiry that needs a response ASAP).

Not sure if you can help but do you have any information as to how, when and why please to solve this mystery?

- 4. What are Defence's reasons for removing the attached webpage previously found at: <https://www.defence.gov.au/about/capability-acquisition-sustainment-group/our-structure/air/jsf/industry-participation?>

ACS Industry: FYSA, and I haven't had a chance to reach out to yet but I do know that both s47E(d) and I haven't been able to find this link for a number of weeks.

OHASD, FYSA.

Cheers

s47E(d)
