

How To Guide

*Complete an **Export of DSGL goods, or goods containing DSGL technology (tangible) application***

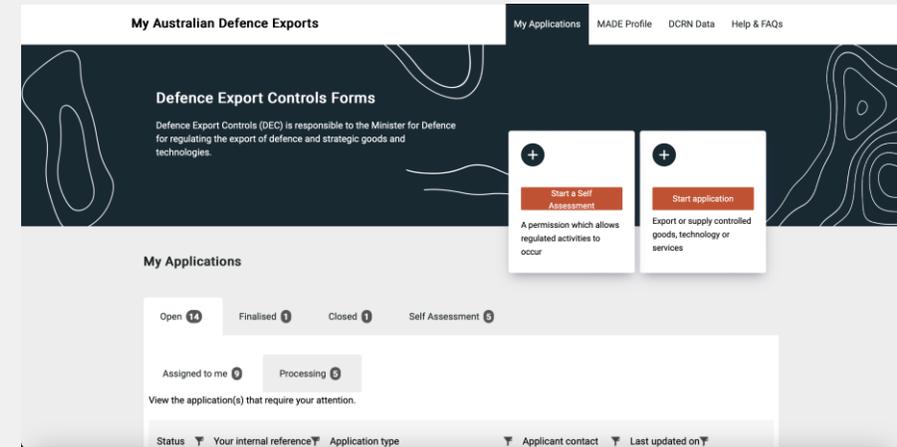

How to Export DSGL goods, or goods containing DSGL technology (tangible)

Step 1

- To commence an application to obtain an export permit for a military or dual-use item, select the 'Start application' button on the MADE landing page.

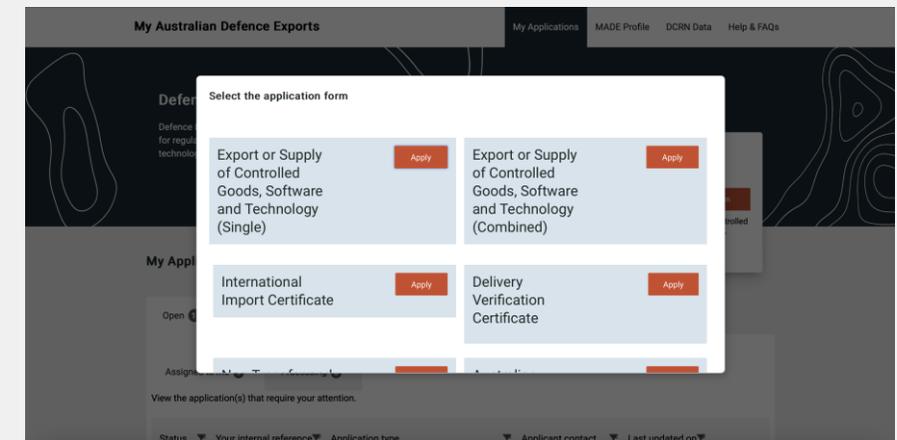

Step 1

Step 2

- Select 'Apply' for the 'Export or Supply Controlled Goods and Technology' single or combined option. If you select the combined option, your application must contain both Physically Exported and Intangibly supplied line items. You will be required to acknowledge and sign two separate 'statement by applicant' consents.

Step 2

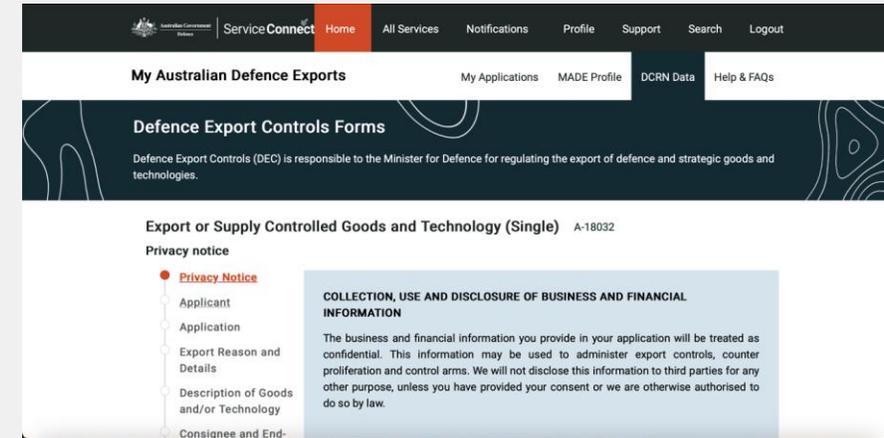

How to Export DSGL goods, or goods containing DSGL technology (tangible)

Step 3

- Take a moment to read the 'Privacy Notice' to ensure you understand the way in which Defence Export Controls will collect and use the data you provide.

Step 3

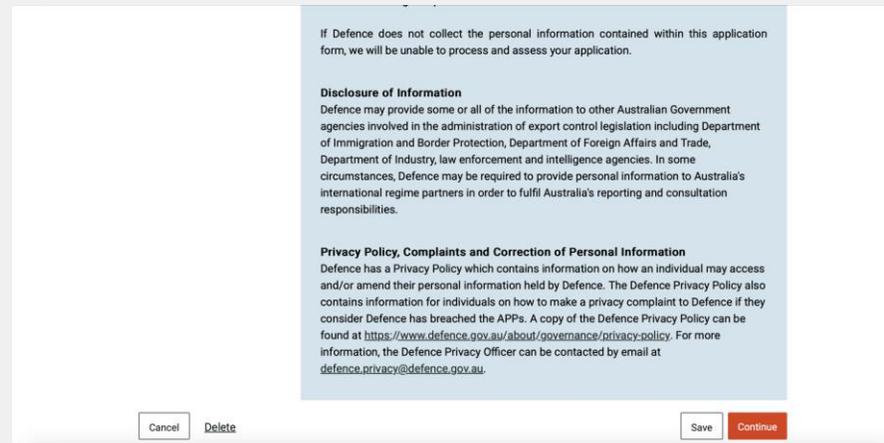

The screenshot shows the 'My Australian Defence Exports' portal. The main heading is 'Defence Export Controls Forms'. Below this, it states 'Defence Export Controls (DEC) is responsible to the Minister for Defence for regulating the export of defence and strategic goods and technologies.' The current form is 'Export or Supply Controlled Goods and Technology (Single) A-18032'. A 'Privacy notice' section is highlighted, with a sub-heading 'COLLECTION, USE AND DISCLOSURE OF BUSINESS AND FINANCIAL INFORMATION'. The text explains that business and financial information provided in the application will be treated as confidential and may be used to administer export controls, counter proliferation, and control arms. It also states that information will not be disclosed to third parties unless consent is given or otherwise authorised by law.

Step 4

- Once you have read the 'Privacy Notice', select 'Continue'.

Step 4

The screenshot shows a detailed privacy notice. It starts with a disclaimer: 'If Defence does not collect the personal information contained within this application form, we will be unable to process and assess your application.' It then has two main sections: 'Disclosure of Information' and 'Privacy Policy, Complaints and Correction of Personal Information'. The 'Disclosure of Information' section states that Defence may provide some or all of the information to other Australian Government agencies involved in the administration of export control legislation, including the Department of Immigration and Border Protection, the Department of Foreign Affairs and Trade, and the Department of Industry, law enforcement and intelligence agencies. The 'Privacy Policy, Complaints and Correction of Personal Information' section states that Defence has a Privacy Policy which contains information on how an individual may access and/or amend their personal information held by Defence. It also contains information for individuals on how to make a privacy complaint to Defence if they consider Defence has breached the APPs. A copy of the Defence Privacy Policy can be found at <https://www.defence.gov.au/about/governance/privacy-policy>. For more information, the Defence Privacy Officer can be contacted by email at defence.privacy@defence.gov.au. At the bottom of the page, there are buttons for 'Cancel', 'Delete', 'Save', and 'Continue'.

How to Export DSGL goods, or goods containing DSGL technology (tangible)

Step 5

- Select your 'Client registration number' that will have been provided at the completion of the DCRN Application process. You may enter an 'Internal reference number', specific to your organisation, to assist with identifying and locating the application at a later date.
- Once you have done this, select 'Continue'.

Step 5

Step 6

- Select the 'Application type' drop-down box and choose the application type that is relevant to your needs. For the purposes of this guide, we will be selecting 'Apply for a new permit'. But if you are looking to obtain an 'in-principle assessment' or are exporting an item for which you have previously obtained an 'in-principle assessment', select those options as appropriate.

Step 6

How to Export DSGL goods, or goods containing DSGL technology (tangible)

Step 7

- Respond to the question about whether you believe or suspect the exported or supplied items may be used in a WMD program by selecting either 'yes' or 'no', then select 'Continue'.
- If you select yes, you are required to enter your reason in the free-text box that appears.

Step 7

The screenshot shows the 'Application purpose' section of the 'Export or Supply Controlled Goods and Technology (Single)' form. A progress bar on the left indicates the current step. The main content area contains a dropdown menu for 'Application type' with 'Apply for a new permit' selected. Below this is a question: 'Do you believe or suspect the goods, technology or any services to be exported or supplied may be used in a weapons of mass destruction program?'. The 'No' radio button is selected. At the bottom, there are 'Back', 'Delete', 'Save', and 'Continue' buttons.

Step 8

- Indicate whether you are exporting items on behalf of someone else. If the answer is 'yes', you will need to enter their details. This will include whether they have a DCRN, their ABN/CCID and their name, contact details and physical address.
- Once this is complete, select 'Continue'.

Step 8

The screenshot shows the 'Goods owner' section of the 'Export or Supply Controlled Goods and Technology (Single)' form. A progress bar on the left indicates the current step. The main content area contains a question: 'Are you exporting goods, software or technology on behalf of someone else?'. The 'No' radio button is selected. At the bottom, there are 'Back', 'Delete', 'Save', and 'Continue' buttons.

How to Export DSGL goods, or goods containing DSGL technology (tangible)

DEFENCE EXPORT CONTROLS

Step 9

- Select the 'Select the option which best describes...' drop-down box and select the reason that best describes why you are exporting or supplying the controlled items. Common responses for controlled goods may include:
 - Being exported or supplied under a Defence contract,
 - For use by Foreign Government/Foreign Military, or
 - For use in ADF operations.

Line Item 1

How are you exporting?
Physically Exported

Item type +
Goods

Goods: Movable personal property for any kind and, without limiting the generality of the expression, includes documents, vessels and aircraft.

Line item description - A short description of the item +
Surveillance Drone

Remaining: 182 characters
e.g. Fluoropolymer lined valve JSX9000

Type of goods +
Please select..
Firearm
Radio
Other

Model name / number +

NATO stock number (if applicable)

A valid format is NNNN-NN-NNN-NNNN (all numerical)

Step 20

- If you choose 'Other' for your 'Type of goods', you must specify the type of goods. This can be a simpler description than previously provided. Indicate the 'Manufacturer', the 'Model name and/or number', 'NATO stock number' if applicable, the 'Quantity', 'Unit of measure' and 'Total value of line item'. The 'Total value of line item' is a per unit basis.

Step 20

Type of goods +
Other

Other, please specify? +
Surveillance Drone

Remaining: 82 characters

Manufacturer +
Australian Defence Exports Company

Model name / number +
Sneaky Hawk SH001

NATO stock number (if applicable)

A valid format is NNNN-NN-NNN-NNNN (all numerical)

Quantity +
100

Unit of measure +
UNIT

Total value of line item (AUD) +
1,000.00

Supporting material +
Please select

How to Export DSGL goods, or goods containing DSGL technology (tangible)

Step 21

- Indicate the type of supporting material (select No Supporting Document if none available), which may be a 'Specification Sheet', 'Technical Documentation' or a 'Website URL'. If you choose 'Specification Sheet' or 'Technical Documentation', you will need to provide these as attachments later in the application process. If you choose 'Website URL', you will need to provide the link within this section.

Step 21

The screenshot shows a web form for Step 21. At the top, there is a dropdown menu labeled 'Supporting material' with a blue arrow pointing down. The menu is open, showing four options: 'No Supporting Document', 'Specification Sheet', 'Technical Documentation', and 'Website URL'. Below the menu, there is a link: 'Have you self-assessed against the Defence and Strategic Goods List (DSGL)?* <https://www.legislation.gov.au/Details/F2021L01198>'. Below this link are several radio button questions: 'Does the item contain encryption?', 'Is the export an upgrade to a system previously exported from Australia?', 'Is the item for the installation, operation, maintenance or repair of goods (including software and technology)?', 'Are the goods, software or technology specially designed or modified for military use?', 'Is the item specially designed for medical end-use?', and 'Is the item, or will the item be, incorporated into medical equipment?'.

Step 22

- Indicate whether the goods were manufactured in Australia. If they were, you have the option to provide any foreign export control classifications. Indicate whether you have completed a self-assessment, achieved by identifying your type of goods within the Defence and Strategic Goods List (DSGL).

Step 22

The screenshot shows a web form for Step 22. At the top, there is a dropdown menu labeled 'Supporting material' with a blue arrow pointing down. The menu is closed, and the selected option is 'Website URL'. Below the menu, there is a text input field for the 'Website URL (specification / technical)' with the value 'www.sneakyhawk001.com/technicaldata'. Below the input field, there is a character count: 'Remaining: 2011 characters'. Below this, there is a radio button question: 'Is the line item manufactured in Australia?' with 'Yes' selected. Below this, there is a text input field for 'Please provide any foreign export control classifications (E.g. USML, ECCN, EAR, ECN etc) if known *'. Below the input field, there is a character count: 'Remaining: 1000 characters'. Below this, there is a link: 'Have you self-assessed against the Defence and Strategic Goods List (DSGL)?* <https://www.legislation.gov.au/Details/F2021L01198>'. Below this link are several radio button questions: 'Does the item contain encryption?' and 'Is the export an upgrade to a system previously exported from Australia?'.

How to Export DSGL goods, or goods containing DSGL technology (tangible)

DEFENCE EXPORT CONTROLS

Step 23

- Provide the code relevant to your goods found within the DSGL, and provide justification for your self-assessed classification, that is, how you made the decision on which code to select.
- Select 'yes' or 'no' to the remainder of the questions within this section, some of which are technology specific and not relevant to an application for the export of controlled goods.

Step 23

Have you self-assessed against the Defence and Strategic Goods List (DSGL)?*
<https://www.legislation.gov.au/Details/F2021L01198>

Yes No

Provide self-assessment code*
ML14

Provide justification / key parameters for self-assessed classification*
The DSGL indicated that this item is controlled.

Remaining 951 characters

Does the item contain encryption?*

Yes No

Is the export an upgrade to a system previously exported from Australia?*

Yes No

Software upgrade that enhance and increase the capability of existing software will require new application to be submitted.

Is the item for the installation, operation, maintenance or repair of goods (including software and technology)?*

Yes No

Are the goods, software or technology specially designed or modified for military use?*

Yes No

Is the item specially designed for medical end-use?*

Yes No

Is the item, or will the item be, incorporated into medical equipment?*

Step 24

- After indicating 'yes' or 'no' to the remainder of the questions in this section, and providing any additional detail as required, you have the option to select 'Add line item'. This enables you to export multiple line items under the single permit. For example, if you are submitting an application for 2 firearms, you can add one line item for 4 rounds of ammunition.
- If you are only exporting a single line item, select 'Continue'.

Step 24

Remaining 951 characters

Does the item contain encryption?*

Yes No

Is the export an upgrade to a system previously exported from Australia?*

Yes No

Software upgrade that enhance and increase the capability of existing software will require new application to be submitted.

Is the item for the installation, operation, maintenance or repair of goods (including software and technology)?*

Yes No

Are the goods, software or technology specially designed or modified for military use?*

How to Export DSGL goods, or goods containing DSGL technology (tangible)

Step 27

- The End-User is entered in the same way as the Consignee. They can be the same entity as the Consignee, or different, depending on the nature of your export. You have the option to select 'Add End-User' to add one or more End-Users.

Step 27

The screenshot shows the 'End-User(s)' form. It includes a dropdown for 'End-User name' with 'John Doe' selected. Below this are fields for 'Number and street name' (123 Exports Lane), 'Suburb/Town' (Defence), 'Postcode' (1234), 'Province/State/Region' (Act), and 'Country' (Australia). A red '+ Add End-User' button is located below the form. At the bottom, there are two questions with radio button options: 'Is the Consignee / End-User in an associated/related industry to you?' (Yes/No) and 'Have you exported or supplied goods or technology to the Consignee/End-User previously?' (Yes/No).

Step 28

- Complete the remaining questions on Consignees and/or End-Users, providing further details as required. Evidence from an End-User verifies how they will use the goods.
- Once these questions are complete, select 'Continue'.

Step 28

This screenshot shows the final part of the 'End-User(s)' form. The 'Is the Consignee / End-User in an associated/related industry to you?' question is selected with 'No'. The 'Have you exported or supplied goods or technology to the Consignee/End-User previously?' question is selected with 'Yes'. Below these are two text input fields for providing further details, each with a 'Remaining: 1000 characters' indicator. At the bottom, there are 'Back', 'Delete', 'Save', and 'Continue' buttons.

How to Export DSGL goods, or goods containing DSGL technology (tangible)

Step 29

- The Third Party/Foreign Government Approvals section requires you to indicate whether your goods are subject to end use or end-user restrictions or re-export controls by a foreign government.
- If the answer is 'yes', you are required to specify the country who owns the restrictions or re-export controls, and to indicate whether you can upload proof of permission or an appropriate exemption.
- If you cannot upload proof of permission or an appropriate exemption, you are required to provide a 'Reason for not supplying Exemption'.
- After you have indicated whether the export of goods is related to Australian Government business, and entered the representative details if required, select 'Continue'.

Step 29

The screenshot shows the 'Third Party/Foreign Government Approvals' section of the application form. On the left is a vertical navigation menu with the following items: Privacy Notice, Applicant, Application, Goods Owner Details, Export Reason and Details, Description of Goods and/or Technology, Consignee and End-User Details, Third Party/Foreign Government Approvals (highlighted in red), Further Information, and Declaration. The main content area contains the following questions and options:

- Are the goods or technology, including any embedded technology, data or equipment, subject to end use or end user restrictions or re-export controls by a foreign government (generally the government of the country of origin), such as the United States International Traffic in Arms Regulations (ITAR) or the United States Export Administration Regulations (EAR)?
 Yes No
- Note: Proof of authority for the re-export of items subject to end use or end user restrictions must be uploaded at the end of this application form.
- Specify the country*
United States of America
- Were the goods or technology previously subject to the Australian-US Defence Trade Cooperation Treaty? *
 Yes No
- What is the Approved Community Identification (ACID) number for this facility? *
- Can you upload proof of permission or appropriate exemption? *
 Yes No
- Please be advised export applications for goods subject to US re-export or ITAR condition without Proof of Authority may not be able to be processed and can cause delays.
- Reason for not supplying Exemption? *

At the bottom, it indicates 'Remaining: 1000 characters'.

Step 30

- Indicate 'yes' or 'no' to indicate whether you wish to provide any additional information in support of your application. You may include any relevant details, but please ensure that all documents combined do not exceed 15 MB and are not password protected.
- After attaching any additional information, select 'Continue'.

Step 30

The screenshot shows the 'Further Information' section of the application form. At the top, it says 'Defence Export Controls Forms' and 'Defence Export Controls (DEC) is responsible to the Minister for Defence for regulating the export of defence and strategic goods and technologies.' Below this is the title 'Export or Supply Controlled Goods and Technology (Single) A-18032'. The left navigation menu is the same as in Step 29, with 'Further Information' highlighted in red. The main content area contains the following question and options:

- Do you wish to provide additional information in support of your application? *
 Yes No

At the bottom, there are 'Back' and 'Delete' buttons on the left, and 'Save' and 'Continue' buttons on the right.

How to Export DSGL goods, or goods containing DSGL technology (tangible)

Step 31

- This is your opportunity to attach any files that are required due to the nature of your export and the information you have entered in your application.
- For example, a supplier would be required to attach a 'Proof of exemption' for ITAR technology if it was integrated into their item. Other required files may include Specification Sheets, Technical Documentation or evidence to how the End-User will use the supplied goods.
- Once you have uploaded any relevant files, select 'Continue'.

Step 31

The screenshot shows the 'Defence Export Controls Forms' interface for 'Export or Supply Controlled Goods and Technology (Single)'. The page title is 'A-18032'. A navigation menu on the left lists steps: Privacy Notice, Applicant, Application, Goods Owner Details, Export Reason and Details, Description of Goods and/or Technology, Consignee and End-User Details, Third Party/Foreign Government Approvals, Further Information, Supporting Document(s) (highlighted in red), and Declaration. The main content area is titled 'Upload supporting documents' and includes the instruction: 'Upload supporting documents against the list of documents requested below. Accurate documentation supports the timely assessment of your application. Uploaded documents will appear in the Files and documents section.' There are two tabs: 'Application level' and 'Proof of exemption'. An 'Attach File...' button is visible. Below the tabs is a 'Files & documents (0)' section with a progress bar and the text 'No items'. At the bottom, there are 'Back', 'Delete', 'Save', and 'Continue' buttons.

Step 32

- Select the check box to indicate that you confirm the information you have provided is true and correct, and that you will promptly notify Defence Export Controls of any changes relating to the information provided.

Step 32

The screenshot shows the 'Statement by Applicant' page for 'Export or Supply Controlled Goods and Technology (Single)'. The page title is 'A-18032'. The navigation menu on the left is identical to Step 31, with 'Declaration' highlighted in red. The main content area is titled 'Statement by Applicant' and includes a checkbox with the text: 'By submitting this application, I confirm that:'. Below this are two bullet points: 'I certify that the information in this application is true and correct.' and 'I will promptly notify Defence Export Controls of any changes relating to the information provided.' Below this is a section titled 'Authorised contact details on behalf of Australian Defence Exports Company' with a form containing fields for: Applicant first name (Nina), Applicant last name (Robins), Applicant position / title (nina.robins@gmail.com), Applicant email (nina.robins@gmail.com), Applicant phone number (---), and Submission date (14-Aug-2024). At the bottom, there are 'Back', 'Delete', 'Save', and 'Finish' buttons.

Defence Export Controls Forms

Defence Export Controls (DEC) is responsible to the Minister for Defence for regulating the export of defence and strategic goods and technologies.

Submission successful

Your application has been successfully submitted.

Export or Supply Controlled Goods and Technology (Single) A-18032

Overview:

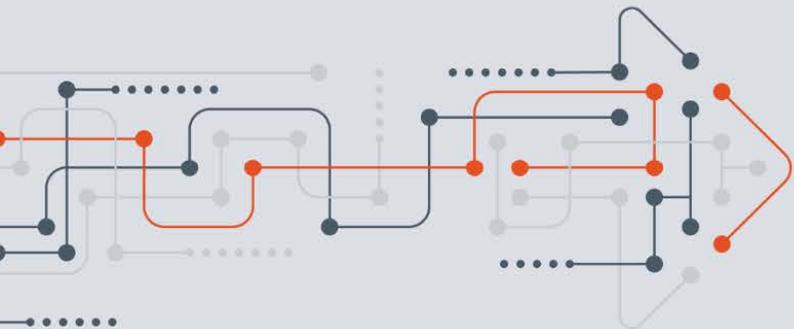

Application status	SUBMITTED
Generated by	Nina Robins
Generated date	14-Aug-2024
Submitted date	14-Aug-2024

Application # A-18034 will be automatically duplicated.
You must review the cloned application, and confirm only 'Intangibly Supplied' line items are present.
Where applicable, provide the required supporting documents / references for the listed 'Intangibly Supplied' line items.
Once reviewed, Statement by Applicant signed, and submitted a new application number is allocated.
Both applications are visible in the My Australian Defence Exports portal home page.

As a reference -

- Initial Application - contains all 'Physically Exported' items.
- Re-produced - contains all 'Intangibly Supplied' items.
