

How To Guide

*Complete a Supply of DSGI goods, software or technology
(intangible) application*

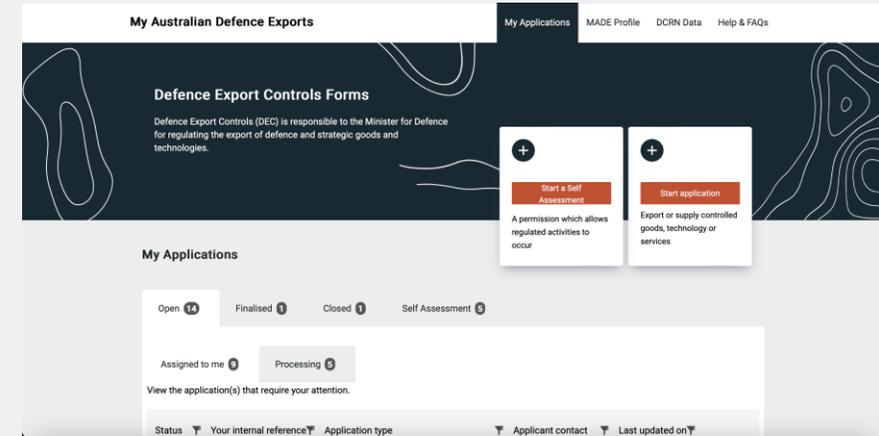

How to Export DSGL goods, software or technology (intangible)

Step 1

- To commence an application to obtain a supply permit for a military or dual-use item, select the 'Start application' button on the MADE landing page.

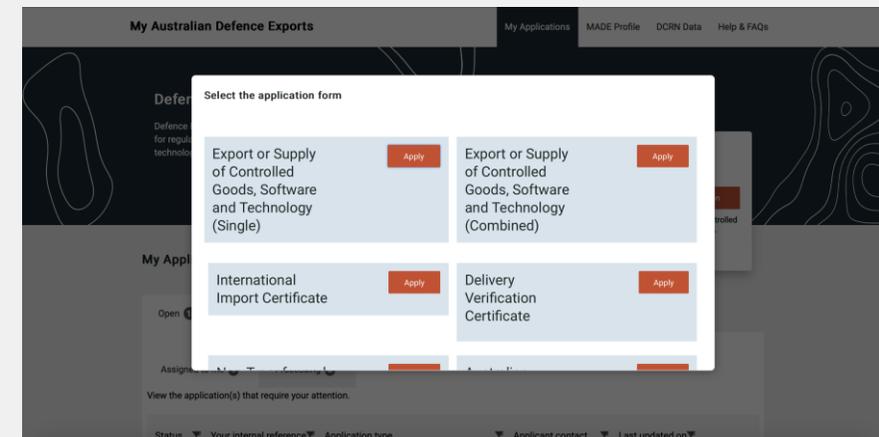

Step 1

Step 2

- Select 'Apply' for the 'Export or Supply Controlled Goods and Technology' option.

Step 2

How to Export DSGL goods, software or technology (intangible)

Step 3

- Take a moment to read the 'Privacy Notice' to ensure you understand the way in which Defence Export Controls will collect and use the data you provide.

Step 3

The screenshot shows the 'My Australian Defence Exports' portal. The main heading is 'Defence Export Controls Forms'. Below this, it says 'Defence Export Controls (DEC) is responsible to the Minister for Defence for regulating the export of defence and strategic goods and technologies.' The form is titled 'Export or Supply Controlled Goods and Technology (Single) A-25001'. A navigation menu on the left lists: Privacy notice (selected), Applicant, Application, Export Reason and Details, Description of Goods and/or Technology, Consignee and End-User Details, Further Information, and Declaration. The main content area displays the 'Privacy notice' text, including sections for 'COLLECTION, USE AND DISCLOSURE OF BUSINESS AND FINANCIAL INFORMATION', 'Australian Privacy Principles', and 'Purpose of Collection'.

Step 4

- Once you have read the 'Privacy Notice', select 'Continue'.

Step 4

The screenshot shows the 'Declaration' section of the form. The heading is 'Declaration'. The main content area displays the 'Purpose of Collection' section, which states: 'The personal information you provide in this application form is collected by Defence to administer export control legislation including the Customs Act 1901, the Defence Trade Controls Act 2012 and the Weapons of Mass Destruction (Prevention of Proliferation) Act 1995. The personal information collected on this form includes your name. The information you provide will be used to assess your application. Defence may also use the information when undertaking compliance activities. If Defence does not collect the personal information contained within this application form, we will be unable to process and assess your application.' Below this is the 'Disclosure of Information' section, which states: 'Defence may provide some or all of the information to other Australian Government agencies involved in the administration of export control legislation including Department of Immigration and Border Protection, Department of Foreign Affairs and Trade, Department of Industry, law enforcement and intelligence agencies. In some circumstances, Defence may be required to provide personal information to Australia's international regime partners in order to fulfil Australia's reporting and consultation responsibilities.' At the bottom, there is a 'Privacy Policy, Complaints and Correction of Personal Information' section. At the bottom of the form, there are buttons for 'Cancel', 'Delete', 'Save', and 'Continue' (with a 'Complete this assignment' label).

How to Export DSGL goods, software or technology (intangible)

Step 5

- Select your 'Client registration number' that will have been provided at the completion of the DCRN Application process. You may enter an 'Internal reference number', specific to your organisation, to assist with identifying and locating the application at a later date.
- Once you have done this, select 'Continue'.

Step 5

Step 6

- Select the 'Application type' drop-down box and choose the application type that is relevant to your needs. For the purposes of this guide, we will be selecting 'Apply for a new permit'. But if you are looking to obtain an 'in-principle assessment' or are exporting an item for which you have previously obtained an 'in-principle assessment', select those options as appropriate.

Step 6

How to Export DSGL goods, software or technology (intangible)

Step 7

- Respond to the question about whether you believe or suspect the exported or supplied items may be used in a WMD program by selecting either 'yes' or 'no', then select 'Continue'.

Step 7

The screenshot shows the 'Defence Export Controls Forms' interface. The title is 'Export or Supply Controlled Goods and Technology (Single) A-25001'. A progress bar on the left indicates the current step is 'Application'. The main content area is titled 'Application purpose' and contains a dropdown menu for 'Application type' with 'Apply for a new permit' selected. Below this is a question: 'Do you believe or suspect the goods, technology or any services to be exported or supplied may be used in a weapons of mass destruction program?'. The 'No' radio button is selected. At the bottom, there are 'Back', 'Delete', 'Save', and 'Continue' buttons.

Step 8

- Indicate whether you are exporting items on behalf of someone else. If the answer is 'yes', you will need to enter their details. This will include whether they have a DCRN, their ABN/CCID and their contact details.
- Once this is complete, select 'Continue'.

Step 8

The screenshot shows the 'Defence Export Controls Forms' interface. The title is 'Export or Supply Controlled Goods and Technology (Single) A-25001'. A progress bar on the left indicates the current step is 'Goods Owner Details'. The main content area is titled 'Goods owner' and contains a question: 'Are you exporting goods, software or technology on behalf of someone else?'. The 'No' radio button is selected. At the bottom, there are 'Back', 'Delete', 'Save', and 'Continue' buttons.

How to Export DSGL goods, software or technology (intangible)

Step 9

- Select the 'Select the option which best describes...' drop-down box and select the reason that best describes why you are exporting or supplying the controlled items. Common responses for controlled goods may include:
 - Being exported or supplied under a Defence contract,
 - For use by Foreign Government/Foreign Military, or
 - For use in ADF operations.

Step 9

Step 10

- Indicate 'yes' or 'no' as to whether a party other than the applicant will have possession of the goods while they are overseas.

Step 10

How to Export DSGL goods, software or technology (intangible)

Step 11

- If the answer is 'yes', you will be required to indicate where the item will be left and/or stored. The pre-supplied options are predominantly relevant to tangible items.
- For this application it is likely you will need to select 'Other' and provide further details.

Step 11

How to Export DSGL goods, software or technology (intangible)

Step 21

- Indicate the type of supporting material, which may be a 'Specification Sheet', 'Technical Documentation' or a 'Website URL'. If you choose 'Specification Sheet' or 'Technical Documentation', you will need to provide these as attachments later in the application process. If you choose 'Website URL', you will need to provide the link within this section.

Step 21

The screenshot shows the 'Supporting material' dropdown menu with the following options: 'No Supporting Document', 'Specification Sheet', 'Technical Documentation', and 'Website URL'. Below the dropdown, there are several self-assessment questions with radio button options for 'Yes' and 'No':

- Have you self-assessed against the Defence and Strategic Goods List (DSGL)?* <https://www.legislation.gov.au/Details/F2021L01198>
 Yes No
- Does the item contain encryption?*-
 Yes No
- Is the export an upgrade to a system previously exported from Australia?*-
 Yes No
- Software upgrade that enhance and increase the capability of existing software will require new application to be submitted.
Is the item for the installation, operation, maintenance or repair of goods (including software and technology)?*-
 Yes No
- Does the technology constitute basic scientific research?*-
 Yes No
- Any technology which extends only the 'fundamental principles of phenomena or observable facts', and is 'not primarily directed towards a specific practical aim or objective', falls within the definition of basic scientific research, and would therefore not be controlled. This exemption applies to all technology listed on the DSGL.
Is the technology directly supporting a patent application?*-
 Yes No

Step 22

- Indicate whether the goods were manufactured in Australia. If they were, you have the option to provide any foreign export control classifications. Indicate whether you have completed a self-assessment, achieved by identifying your type of goods within the Defence and Strategic Goods List (DSGL).

Step 22

The screenshot shows the 'Supporting material' dropdown menu with 'Website URL' selected. Below the dropdown, there is a text input field for the website URL: www.sneakyhawk.com/technicaldata. Below this, there are several self-assessment questions with radio button options for 'Yes' and 'No':

- Is the item manufactured in Australia?*-
 Yes No
- Please provide any foreign export control classifications (E.g. USML, ECCN, EAR, ECR etc.) if known *
Note: providing this information will avoid unnecessary delays
Remaining: 1000 characters
- Have you self-assessed against the Defence and Strategic Goods List (DSGL)?* <https://www.legislation.gov.au/Details/F2021L01198>
 Yes No
- Provide self-assessment code*-
Provide justification / key parameters for self-assessed classification*-

DEFENCE EXPORT CONTROLS

Step 27

- The End-User is entered in the same way as the Consignee. They can be the same entity as the Consignee, or different, depending on the nature of your application. You have the option to select 'Add End-User' to add one or more End-Users.

Step 27

The screenshot shows the 'End-User(s)' form. It includes a dropdown menu for 'End-User name' with 'John Doe' selected. Below this are input fields for 'Number and street name' (123 Exports Lane), 'Suburb/Town' (Defence), 'Postcode' (1234), 'Province/State/Region' (Act), and 'Country' (Australia). A red '+ Add End-User' button is located at the bottom right. Below the form are two questions with radio button options: 'Is the Consignee / End-User in an associated/related industry to you?' (Yes/No) and 'Have you exported or supplied goods or technology to the Consignee/End-User previously?' (Yes/No).

Step 28

- Complete the remaining questions on Consignees and/or End-Users, providing further details as required. Evidence from an End-User verifies how they will use the technology.
- Once these questions are complete, select 'Continue'.

Step 28

The screenshot shows the 'End-User(s)' form with the radio button options for the two questions from Step 27 now selected: 'No' for 'Is the Consignee / End-User in an associated/related industry to you?' and 'Yes' for 'Have you exported or supplied goods or technology to the Consignee/End-User previously?'. Below these are two text input fields, each with a 'Remaining: 1000 characters' label. The first field is for 'Provide further details, including over what period of time'. The second field is for 'How will the End-User / Recipient utilise these items and/or technology?'. At the bottom, there are 'Back', 'Delete', 'Save', and 'Continue' buttons.

How to Export DSGL goods, software or technology (intangible)

Step 29

- The Third Party/Foreign Government Approvals section requires you to indicate whether your technology is subject to end use or end-user restrictions or re-export controls by a foreign government.
- If the answer is 'yes', you are required to specify the country who owns the restrictions or re-export controls, and to indicate whether you can upload proof of permission or an appropriate exemption.
- If you cannot upload proof of permission or an appropriate exemption, you are required to provide a 'Reason for not supplying Exemption'.
- After you have indicated whether the supply of technology is related to Australian Government business, and entered the representative details if required, select 'Continue'.

Step 29

Third Party/Foreign Government Approvals

Are the goods or technology, including any embedded technology, data or equipment, subject to end use or end user restrictions or re-export controls by a foreign government (generally the government of the country of origin), such as the United States International Traffic in Arms Regulations (ITAR) or the United States Export Administration Regulations (EAR)?

Yes No

Note: Proof of authority for the re-export of items subject to end use or end user restrictions must be uploaded at the end of this application form.

Specify the country *

United States of America

Were the goods or technology previously subject to the Australian-US Defence Trade Cooperation Treaty? *

Yes No

What is the Approved Community Identification (ACID) number for this facility? *

Can you upload proof of permission or appropriate exemption? *

Yes No

Please be advised export applications for goods subject to US re-export or ITAR condition without Proof of Authority may not be able to be processed and can cause delays.

Reason for not supplying Exemption? *

Remaining: 1000 characters

Step 30

- Indicate 'yes' or 'no' to indicate whether you wish to provide any additional information in support of your application.
