COLLECTION, USE AND DISCLOSURE OF BUSINESS AND FINANCIAL INFORMATION

The business and financial information you provide in your application will be treated as confidential. This information may be used to administer export controls, counter proliferation and control arms. We will not disclose this information to third parties for any other purpose, unless you have provided your consent or we are otherwise authorised to do so by law.

Australian Privacy Principles

The Department of Defence (Defence) must comply with the Australian Privacy Principles (APPs) contained in the *Privacy Act 1988* (Cth) (Privacy Act), which govern the handling personal information. This privacy notice is provided in accordance with APP 5 and explains how Defence will handle the personal information it collects in this application form.

Purpose of Collection

The personal information you provide in this application form is collected by Defence to administer export control legislation including the *Customs Act 1901*, the *Defence Trade Controls Act 2012* and the *Weapons of Mass Destruction (Prevention of Proliferation) Act 1995*.

The personal information collected on this form includes your name. The information you provide will be used to assess your application. Defence may also use the information when undertaking compliance activities.

If Defence does not collect the personal information contained within this application form, we will be unable to process and assess your application.

Disclosure of Information

Step 4

- Once you have read the 'Privacy Notice', select 'Continue'.

Step 4

Purpose of Collection

The personal information you provide in this application form is collected by Defence to administer export control legislation including the *Customs Act 1901*, the *Defence Trade Controls Act 2012* and the *Weapons of Mass Destruction (Prevention of Proliferation) Act 1995*.

The personal information collected on this form includes your name. The information you provide will be used to assess your application. Defence may also use the information when undertaking compliance activities.

If Defence does not collect the personal information contained within this application form, we will be unable to process and assess your application.

Disclosure of Information

Defence may provide some or all of the information to other Australian Government agencies involved in the administration of export control legislation including Department of Immigration and Border Protection, Department of Foreign Affairs and Trade, Department of Industry, law enforcement and intelligence agencies. In some circumstances, Defence may be required to provide personal information to Australia's international regime partners in order to fulfil Australia's reporting and consultation responsibilities.

Privacy Policy, Complaints and Correction of Personal Information

Defence has a Privacy Policy which contains information on how an individual may access and/or amend their personal information held by Defence. The Defence Privacy Policy also contains information for individuals on how to make a privacy complaint to Defence if they consider Defence has breached the APPs. A copy of the Defence Privacy Policy can be found at <https://www.defence.gov.au/about/governance/privacy-policy>. For more information, the Defence Privacy Officer can be contacted by email at defence.privacy@defence.gov.au.

Application purpose

If you are providing a DSGL related service to a foreign person located overseas, then please select as many as applicable below:

Design *
 Yes No

Development *
 Yes No

Engineering *
 Yes No

Manufacture *
 Yes No

Production *
 Yes No

Assembly *
 Yes No

Testing *
 Yes No

Repair *
 Yes No

Step 7

- Continue to indicate 'yes' or 'no' for the service types and provide a description of the equipment, system or platform that the service is related to.

Step 7

Yes No
Assembly *

Yes No
Testing *

Yes No
Repair *

Yes No
Maintenance *

Yes No
Modification *

Yes No
Operation *

Yes No
Demilitarisation *

Yes No
Destruction *

Yes No
Processing or use *

Provide a description of the equipment / system / platform that the service relates to.

Remaining: 500 characters

Step 8

- Provide a short description of the activity being conducted specific to the equipment, system or platform. Select either 'yes' or 'no' to indicate whether there are goods being provided as a part of this service, and if the answer is 'yes', provide details on how those goods are being exported and whether or not they are intangible or physical.
- If no goods are being provided you will not be required to enter a description of Goods and /or technology further in the application process.
- Indicate 'yes' or 'no' if you believe or suspect the technology being supplied may be used in a WMD program, then select 'Continue'.

Step 8

Yes No
Demilitarisation *

Yes No
Destruction *

Yes No
Processing or use *

Provide a description of the equipment / system / platform that the service relates to.

Sneaky Hawk Surveillance Drone

Remaining: 470 characters

Provide a short description on the specific equipment / system / platform and activity being conducted.

As part of the contract with the Foreign Military, our organisation will assemble the drones once delivered, and participate in the local testing of the drone and training of personnel. This includes repair and maintenance during the trial process.

Remaining: 232 characters

Are there goods being provided as a part of this service? *

Yes No

Do you believe or suspect the technology being supplied may be used in a weapons of mass destruction program? *

Yes No

Step 9

- Reference the Defence and Strategic Goods List to determine what category your supply falls under and choose an option within the 'category' drop-down box.
- Choose the expected date of supply, then select 'Continue'.

Step 9

The screenshot shows the 'My Australian Defence Exports' portal. The main heading is 'Defence Export Controls Forms'. Below it, the current form is titled '10C - Provision services outside Australia'. A navigation sidebar on the left lists steps: Privacy Notice, Applicant, Application, Supply Details (highlighted), End User / Recipient Details, Government Representative Details, Further Information, and Declaration. The 'Supply details' section contains a dropdown menu with the prompt 'Select the category that best describes the supply'. The dropdown is open, showing options: 'Part 1-Mentions list' (highlighted), 'Part 2-Dual use list', 'Category 0-Nuclear materials, facilities and equipment', 'Category 1-Materials, chemicals, microorganisms and toxins', 'Category 2-Materials processing', 'Category 3-Electronics', 'Category 4-Computers', 'Category 5-Telecommunications and "information security"', 'Category 6-Sensors and lasers', 'Category 7-Navigation and avionics', 'Category 8-Marine', 'Category 9-Aerospace and propulsion', 'Sensitive list of dual use goods and technologies', 'Very sensitive list of dual use goods and technologies', and 'Other'. 'Save' and 'Continue' buttons are visible at the bottom right.

Step 10

- If you have previously set up End-User details, you can select these from the drop-down box. If you have not previously set up these details, you will be required to enter them in a separate section of the system.
- If you have not already entered these details, save your application before exiting and adding consignee details.

Step 10

The screenshot shows the 'End-User details' section of the '10C - Provision services outside Australia' form. The navigation sidebar is the same as in Step 9, with 'End User / Recipient Details' highlighted. The 'End-User(s)' form contains several input fields: 'End-User name' (a dropdown menu), 'Number and street name', 'Suburb/Town', 'Postcode', 'Province/State/Region', and 'Country'. The 'Save' and 'Continue' buttons are visible at the bottom right.

Step 11

- Indicate 'yes' or 'no' as to whether your provision of services is related to any Australian Government business. If 'no', select 'Continue'.

Step 11

The screenshot shows the '10C - Provision services outside Australia' form. The left sidebar indicates the current step is 'End User / Recipient Details'. The main form area is titled 'End-User(s)' and contains a form for 'End-User 1'. The form fields are: End User name (Jane Doe), Number and street name (123 Defence Street), Suburb/Town (Export Controls), Postcode (2345), Province/State/Region (ACT), and Country (Australia). At the bottom, there are buttons for '+ Add End-User', 'Back', 'Delete', 'Save', and 'Continue'.

Step 12

- If your provision of services is related to Australian Government business, you will be required to fill in the details of your government point of contact.

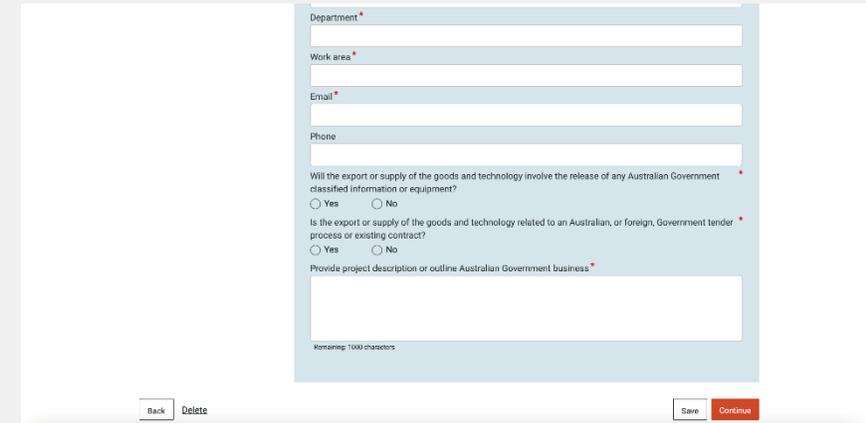

Step 12

The screenshot shows the '10C - Provision services outside Australia' form. The left sidebar indicates the current step is 'Government Representative Details'. The main form area is titled 'Third Party / Foreign Government approvals' and contains a form for 'Activity related to Australian Government business'. The form fields are: 'Is the export or supply of the goods and technology related to Australian Government business?' (Yes/No), Government Representative details (Name, Position / Title, Department, Work area, Email, Phone).

Step 13

- Once you have completed the government point of contact details, you must indicate 'yes' or 'no' to a number of questions on classification, tender or contract association, and a project description or outline of the Australian Government business.
- Having answered these questions, select 'Continue'.

Step 13

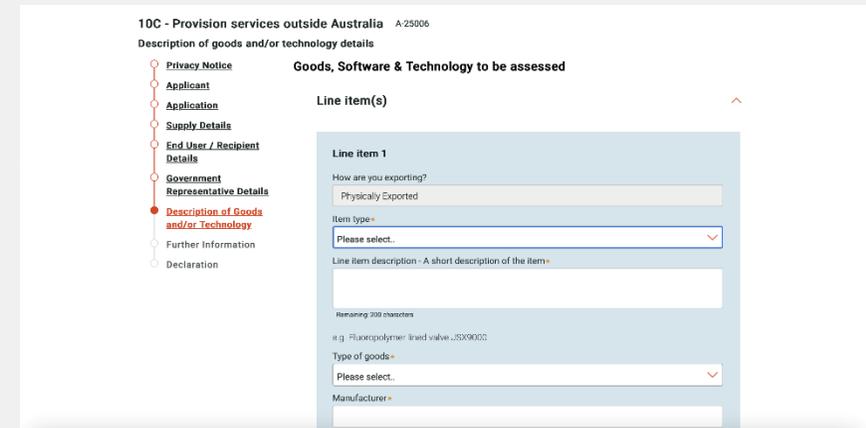

The screenshot shows a form for Step 13. It includes fields for Department, Work area, Email, and Phone. Below these are two radio button questions: "Will the export or supply of the goods and technology involve the release of any Australian Government classified information or equipment?" and "Is the export or supply of the goods and technology related to an Australian, or foreign, Government tender process or existing contract?". Both questions have "Yes" and "No" options. A text area for "Provide project description or outline Australian Government business" is also present, with a "Remaining 1000 characters" indicator. At the bottom, there are "Back", "Delete", "Save", and "Continue" buttons.

Step 14

- Depending on which option you chose in Step 8 relating to the goods being provided with the service, the 'how are you exporting' will be automatically filled. Then select the 'Item type' drop-down box and select the appropriate type – goods, software or technology.
- Provide a short description of the item. Provide enough detail to identify your specific items, to the extent that they cannot be confused with any other item or product.

Step 14

The screenshot shows the "10C - Provision services outside Australia" form. A navigation menu on the left includes: Privacy Notice, Applicant, Application, Supply Details, End User / Recipient Details, Government Representative Details, Description of Goods and/or Technology (highlighted in red), Further Information, and Declaration. The main form area is titled "Goods, Software & Technology to be assessed" and "Line item(s)". It shows "Line item 1" with a "How are you exporting?" dropdown set to "Physically Exported". Below is an "Item type" dropdown set to "Please select...". A "Line item description - A short description of the item" text area is present, with a "Remaining 200 characters" indicator. Below the text area, there is a "Type of goods" dropdown set to "Please select..." and a "Manufacturer" text field.

Step 15

- Due to firearm and radio exports requiring serial numbers, these items have been included in the 'Type of goods' drop-down box. If your items are neither of these, choose 'Other' and specify in the text box. This can be a simpler description than previously provided.
- Indicate the 'Manufacturer', the 'Model name and/or number', 'NATO stock number' if applicable, the 'Quantity', 'Unit of measure' and 'Total value of line item'. The 'Total value of line item' is a per unit basis.

Step 15

The screenshot shows a form for Step 15. It includes a 'Type of goods' dropdown menu with 'Other' selected. Below it is a text box for 'Other, please specify?' containing 'Unscrewed Aerial vehicle for military use'. There are also fields for 'Manufacturer' (filled with 'Defence Exports'), 'Model name / number' (filled with 'SH001'), and 'NATO stock number (if applicable)'. A note indicates a valid format for the stock number is NNNN-NN-NNN-NNNN. Other fields include 'Quantity', 'Unit of measure' (with a 'Please select.' dropdown), 'Total value of line item (AUD)', and 'Supporting material' (with a 'Please select.' dropdown).

Step 16

- Indicate the type of supporting material, which may be a 'Specification Sheet', 'Technical Documentation' or a 'Website URL'. If you choose 'Specification Sheet' or 'Technical Documentation', you will need to provide these as attachments later in the application process. If you choose 'Website URL' you will need to provide the link within this section.
- Indicate whether the goods were manufactured in Australia. If they were, you have the option to provide any foreign export control classifications.

Step 16

The screenshot shows a form for Step 16. A dropdown menu for 'Supporting material' is open, showing options: 'Please select.', 'No Supporting Document', 'Specification Sheet', 'Technical Documentation', and 'Website URL'. Below the dropdown, there is a link to a self-assessment page: <https://www.legislation.gov.au/Details/F20211.01198>. There are several radio button questions: 'Have you self-assessed against the Defence and Strategic Goods List (DSGL)?', 'Does the item contain encryption?', 'Is the export an upgrade to a system previously exported from Australia?', 'Software upgrade that enhance and increase the capability of existing software will require new application to be submitted.', 'Is the item for the installation, operation, maintenance or repair of goods (including software and technology)?', 'Are the goods, software or technology specially designed or modified for military use?', 'Is the item specially designed for medical end-use?', and 'Is the item, or will the item be, incorporated into medical equipment?'.

Step 17

- Indicate whether you have completed a self-assessment, achieved by identifying your type of goods within the Defence and Strategic Goods List (DSGL). Provide the code relevant to your goods found within the DSGL, and provide justification for your self-assessed classification, that is, how you made the decision on which code to select.
- Indicate 'yes' or 'no' to the remainder of the questions within this section.

Step 17

Have you self-assessed against the Defence and Strategic Goods List (DSGL)?
<https://www.legislation.gov.au/Details/F2021L01198>

Yes No

Provide self-assessment code*

ML14

Provide justification / key parameters for self-assessed classification*

Self assessment indicated a permit was needed.

Remaining: 954 characters

Does the item contain encryption?*

Yes No

Is the export an upgrade to a system previously exported from Australia?*

Yes No

Software upgrade that enhance and increase the capability of existing software will require new application to be submitted.

Is the item for the installation, operation, maintenance or repair of goods (including software and technology)?*

Yes No

Are the goods, software or technology specially designed or modified for military use?*

Yes No

Is the item specially designed for medical end-use?*

Yes No

Is the item, or will the item be, incorporated into medical equipment?*

Yes No

Step 18

- After indicating 'yes' or 'no' to the remainder of the questions in this section, and providing any additional detail as required, you have the option to select 'Add line item'. This enables you to include multiple line items within this single application.
- If your application is only in reference to a single item, select 'Continue'.

Step 18

Self assessment indicated a permit was needed.

Remaining: 954 characters

Does the item contain encryption?*

Yes No

Is the export an upgrade to a system previously exported from Australia?*

Yes No

Software upgrade that enhance and increase the capability of existing software will require new application to be submitted.

Is the item for the installation, operation, maintenance or repair of goods (including software and technology)?*

Yes No

Are the goods, software or technology specially designed or modified for military use?*

Yes No

Is the item specially designed for medical end-use?*

Yes No

Is the item, or will the item be, incorporated into medical equipment?*

Yes No
