****NOISE AND TRAINING NOTICE****

**AUSTRALIAN ARMY AVIATION TRAINING ACTIVITY
GREATER SYDNEY, WOLLONGONG AND NEW SOUTH
WALES CENTRAL COAST**

Australian Defence Force (ADF) helicopters and personnel will conduct aviation training across the Greater Sydney region, Wollongong and the New South Wales Central Coast in October and November 2025.

The training will be conducted throughout the day and night, and involves responses to simulated threat scenarios.

Members of the public may notice an increase in military helicopter movements and associated noise during this period. They should not be alarmed if they see or hear military helicopters flying low over urban areas.

No live ammunition will be used during the training.

The flying activity schedule is subject to change, including short notice cancellation, due to variables such as air traffic control, weather and other aviation considerations.

Noise disturbances will be minimised where possible and the ADF thanks the public for their patience and cooperation.

Members of the public can access further information regarding aircraft noise at <https://www.defence.gov.au/aircraftnoise/>, or by calling 1800 033 200.

Good Afternoon,

I was wondering if it is possible to make a slight amendment to the Noise and Training Notice?

1. Amend location to: *"Greater Sydney, Wollongong, Goulburn"* – no longer includes central coast region
2. Amend first paragraph to: *"Australian Defence Force (ADF) helicopters and personnel will conduct aviation training across the Greater Sydney region, Wollongong, and Goulburn periodically from 13 October 2025 to 8 November 2025."*

Apologies for this, however, they've just added/removed some NDTAs.

They shouldn't actually be flying IVO Goulburn until about 13 Nov so it's not super urgent!
