RESPONSIBILITIES OF DISTRIBUTEES

AMENDMENTS TO PUBLICATIONS

PUBLICATION MANAGEMENT

1. This publication, although issued as an Australian Air Publication (AAP), is authenticated by the Defence Aviation Authority because the content has Tri-Service significance and authority. The single Service markings have been replaced by their Tri-Service equivalents as part of the formation of a proper, structured, binding Defence Publication System for airworthiness, aircraft, aircraft related equipment and other 'air' matters.
2. Procedures for the management, control and amendment of AAPs are outlined in AAP 5030.001 *Defence Aviation and Australian Air Publication Systems and Specifications Manual*.

Intellectual Property Protection

3. This publication is protected by Commonwealth of Australia Copyright. The contents of this publication may also be protected by other Intellectual Property Protection mechanisms, Government to Government Agreements and/or Third Party Transfer restrictions; such as Original Equipment Manufacturer's Copyright and/or International Traffic in Arms Regulations (ITAR).

Notice to Contractors

4. This publication is issued to Contractors for information only and is to be returned intact on completion of contract to the relevant Commonwealth Contracting Authority.

Special Publication Instructions (SPI) Promulgated Publication Sponsor Changes

5. SPI promulgated publication sponsor changes are to be recorded in the table below:
