PUBLIC AIC PLAN

JP2072 Phase 2A

Company Details:

Company Name: Raytheon Australia Pty Ltd
Location: Macquarie Park, NSW
Website Address: www.raytheon.com.au/capabilities/idu

Executive Summary:

To support the JP2072 PO, Raytheon Australia has been contracted to provide support services to the Tactical Communications Network systems including radio equipments and their ancillaries.

The Contracted Scope includes the provision of the following elements;

- Management Support Services
- Operating Support Services including Field Service Support
- Engineering Services
- Maintenance Services
- Supply Services
- Training Services

The contract duration is three years and is expected to commence on 30 November 2015. The approximate value of the contract is AUD \$16.336M, of which approximately \$11.063M of work will be conducted by Australian industry).

Scope of Future Work Opportunities:

Opportunities for future commercial arrangements for Local Industry Activities (LIA) and management arrangements are limited by the limitations identified in the Export Authorisations required by the US government under TAA1141-11.

Future Opportunities / Industry Engagement:

Raytheon Australia is committed to AIC and is experienced in working with Australian companies and in the majority of cases have capability partners that are SMEs. Raytheon Australia's selection of capability partners is typically based on a long-term engagement and capability needs are reviewed at least annually. Raytheon Australia actively engages the Australian Supply Base through SME forums, engagement with Industry Groups, Universities, routine and event driven assessments.

APPENDIX 3 TO ANNEX B TO ATTACHMENT F

Engagement with SME's is also undertaken through our highly successful Global Supply Chain initiative. Raytheon's Industry Development Unit promotes the interests of Australian industry, including SMEs, by identifying and facilitating future business opportunities.

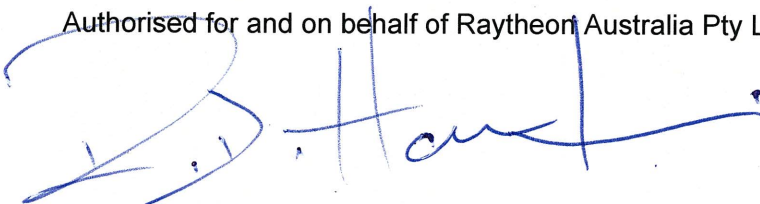

Companies who would like to make representations of their ability, innovations and the value they can provide should register their interest with the IDU or with the JP2027 Phase 2A Project Manager via one of the following;
