

Public Australian Industry Capability Plan

Company Details

Company Name: Northrop Grumman International Trading (NGIT), Inc.

Address: 800 Hicks Road, Rolling Meadows, IL 60008 USA

Location: RAAF Base Edinburgh

Executive Summary

Northrop Grumman International Trading (NGIT) is the prime contractor to the Commonwealth of Australia (Commonwealth) for the provision of sustainment support and repair services for the AN/AAQ-24(V) Large Aircraft Infrared Countermeasures (LAIRCM) system to the Royal Australian Air Force (RAAF).

The sustainment support and repair services for the RAAF will be provided by Northrop Grumman International Trading as the prime contractor under contract number DMO/ESD/00219/2011. The contract price is approximately AUD 140M.

Key Offerings for Australian Industry

The LAIRCM sustainment support and repair services will be led by an integrated team led by NGIT, and supported by subcontractors including, Northrop Grumman Australia Pty Ltd. (NG-APL).

Details of the Australian Industry Involvement are included in Table 1 below:

Table 1 – Australian Industry Work

| Australian Company Performing the Activity | Scope of Work | Location of Work |
|---|--|----------------------------|
| Northrop Grumman – Australia Pty Ltd. | Administrative and technical support. | RAAF Base Edinburgh, SA |

Scope of Work Opportunities

Northrop Grumman International Trading is committed to retaining and growing our in-country support capability and expanding our local support network for the support and repair of LAIRCM products. Due to current ITAR restrictions there are limited opportunities for increased Australian Industry participation. In the future, if the ITAR restrictions are relaxed NGIT is committed to growing Australian Industry Participation.
