# AUSTRALIAN INDUSTRY CAPABILITY PUBLIC PLAN

## Prime Vendor for Acquisition and Support services for the LAND 3025 Phase 2: Counter-Chemical, Biological, Radiological, Nuclear and Explosive (C-CBRNE) capability

### Company Details

Address: Level 9, 70 Franklin Street  
Adelaide SA 5000  
Telephone: +61 (0)8 8440 1400  
Fax: +61 (0)8 8312 3254  
Website: [www.babcock.com.au](http://www.babcock.com.au)

### Executive Summary

Babcock is a leading provider of integrated, digitally-enabled asset management, engineering and training services for complex and critical infrastructure and fleets. In Australia and New Zealand, Babcock employs over 865 people in Land, Marine and Aviation sectors working across the following markets: defence, training, oil and gas, emergency medical services, commercial marine, mining and construction.

Babcock Pty Ltd has entered into a contract for the support of the existing C-CBRNE equipment and the acquisition and support of equipment under the Deployable Special Operations Engineer Capability project (Land 3025 Phase 2). Under the scope of the contracted services Babcock will be the Prime Vendor managing all aspects of the acquisition and management of commercially available C-CBRNE goods and services on behalf of the Commonwealth.

The product categories to be supported are summarised in the table below.

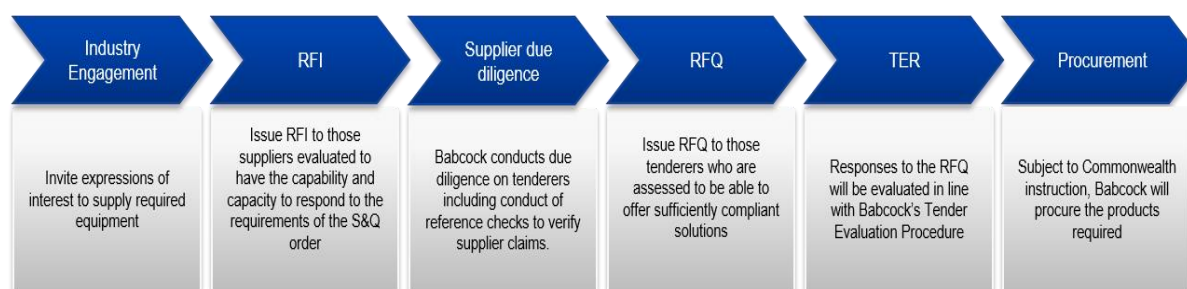

### Summary of C-CBRNE product categories to be supported by Babcock

Detection and identification systems	Protective Equipment - EOD
Decontamination systems	Radiography system
Material analysis systems	Surveillance system - Canine
Personal chemical detection systems	Forensic collection systems
Personal monitoring system	Marking and monitoring systems
Personal Protective Equipment	Projected Sensor System - UAV
Toxic material handling system	Transit packing
Sampling system	Unmanned Ground Vehicle (UGV)
Blast/Fragmentation containment system	Hazard modelling
Data logger system	Localised site mapping
Device disruption and disablement system	Field analytics support systems
Search systems	Forward CBR medical systems
Breaching systems	Other emergent C-CBRNE technologies

The Prime Vendor contract for the acquisition services and support of the C-CBRNE capability is valued at \$26.65 million AUD with the Local Industry Activity valued at \$19.89 million AUD. The value of the products to be acquired will be determined through separate acquisition tasks. The contract will be delivered in accordance with an agreed delivery schedule over a period of 5 years from 1 July 2019.

### Subcontractor details

Babcock is working with Australian industry to meet the technology, quality and price targets for the acquisition and support of the C-CBRNE capability. Australian companies will be invited to submit tenders for required equipment and will be selected through the process shown in the graphic below.

Babcock has identified the companies listed below as providing supply, repair and maintenance support and services to the C-CBRNE contract. Babcock will need additional companies to those listed to meet the Land 3025 Phase 2 acquisition and support program.

*Companies identified as able to provide initial support C-CBRNE capability*

ADG Freight Services	Bohemia Interactive	BROKK
Chemring Australia	Cornell Design	Cutting Edge
DB Schenker	Decon Seven	Deloitte
EAS Toolcraft	EPE	Frazer Nash Consulting
J3Seven	KPMG	Light Aircraft Trading
Logistic Engineering Services	MAC 7	Micro - X
MMC Learning and Development	Nova Systems	Omega Development Group
Owen International	Point Trading	Radtronics
Spearpoint		

## Location

Babcock will provide support to the Commonwealth through our Melbourne office. This will be augmented through the company's Regional Support Centre in Adelaide and services across Australia.

*Babcock's support solution for the C-CBRNE capability*

## Scope of future work opportunities

Babcock will continue to identify and develop suppliers as the scope of work evolves for the C-CBRNE capability, or where new opportunities emerge for existing suppliers within our broader operations in Australia and globally. This will be conducted through:

- Use of the Industry Capability Network (ICN) for work packages to determine industry capability
- Direct approach to market using our own list of suppliers supporting current CBRNE capabilities
- Liaison with State and Commonwealth Industry Development bodies to build a deeper understanding of the current status of Australian Industry Capability
- Direct engagement with companies at future trade shows and industry events

## Future Opportunities

Babcock intends to seek further opportunities to support the Commonwealth through various Defence programs and will continue to engage with Australian companies to maximise the number of qualified suppliers in Babcock's Global Supply Chain. This will include programs across the Land, Marine, Aviation sectors. Opportunities will be notified to potential suppliers through the ICN.

## Point of Contact:

The Babcock point of contact for all matters regarding this opportunity is the:

Account Manager C-CBRNE
